6.2 AUDIT COMMITTEE REPORT	76

CHAPTER 1 – MAYOR’S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR’S FOREWORD

MAYOR’S FOREWORD

It is with great pleasure and honour for me to table the 2015/16 Annual Report. This annual report represents a culmination of the 5-year term of the current council. It epitomises the end of the term which was characterised by a collective commitment by both councillors and senior management to the delivery of services to our people.

The year under review has been both exciting and challenging to our endeavour to improve and better the lives our people. From the time we commenced our term of office up to date, we have witnessed great strides in terms of improved governance. Our Standing Committees and Council continued to execute their work in their legislative mandates. We have witnessed an improvement in terms of the quality of compliance and statutory reporting to Council and its Committees. We have also witnessed improved institutional performance across all Directorates.

On the service delivery front, we continue to make strides in improving the lives our community through the implementation of the Back to Basics Programme. During the year under review, BCRM Council developed and approved the Back to Basic Plan.

The programme for housing rectification in Cookhouse and Somerset East has just commenced. During this year, young people have been the greatest beneficiaries. BCRM has budgeted more than R7million to upgrade sports fields in Cookhouse and Pearston. These will go a long way in providing recreational amenities for young people.

During the 2015/16 financial year, the Auditor General of SA (AGSA) announced an Unqualified Audit Opinion for the 2014/15 financial year. This is a big stride from the stagnation of previous Qualified Audit Opinions. For this I am grateful for the hard work of all staff especially Senior Management, Council for its oversight function and the community of BCRM at large.

The attainment of the Unqualified Audit Opinion could not have been a better gift for myself and this Council as end of our term of office. I wish to implore on Council and officials to work even harder to surpass the Unqualified Audit Opinion and achieve a Clean Audit Opinion.

As this Council ends its term, I wish to thank all my fellow Councillors; Senior Management and all Officials; as well as all our stakeholders that have contributed to improving the lives of the citizens of the Blue Crane Route Municipal area.

I thank you!

Councillor B.A. Manxoweni

MAYOR / SPEAKER

BLUE CRANE ROUTE MUNICIPALITY (EC102)

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

It gives me great pleasure as an Accounting Officer to table the 2015/16 Annual Report of the Blue Crane Route Local Municipality. In any organisation including municipalities, an Annual Report serves as an instrument and statement of accountability. It seeks to give an account of the progress made and challenges faced in the implementation of the developmental objectives of the organisation. It is on this basis that this Annual Report is tabled to the Council and the communities of Blue Crane Route Local Municipality.

The year under review has been a relatively successful year for the BCRM. It is also an opportune year to reflect on past achievements and failures as it is the end of the current term of office of the Council. The municipality has also been relatively stable with a robust but matured political and administrative interface. On the governance front, municipality made strides in terms of improvement. All Council Standing Committees including Council meetings were held as scheduled. The IDP and Budget were adopted by Council after wide consultation with all the relevant stakeholders including community meetings.

The previous Audit Committee's term of office came to an end and a new Audit Committee was subsequently appointed by Council. Meetings of the Audit Committee are convened as scheduled to receive Management and Internal Audit reports. Performance Management at senior management level is being implemented. Performance management reviews of senior management are undertaken on a quarterly basis and reports submitted to Council. In this regard, a Record Performance Information Standard Operating Procedure Manual was developed and approved by Council. During the period under review, the BCRM has also been able to review its Fraud and Anti-corruption Policy and Prevention Plan.

On the Local Economic Development front, we witnessed completion of the construction of the Somerset East Airport which was pioneered by the Department of Rural Development and Land Affairs. We also witnessed the coming to fruition of the Blue Crane Route Industrial Park along the Airport precinct with potential investors coming to the fore. The construction of the R355 road linking Somerset East and Addo has also commenced.

The partnerships developed between the Department of Rural Development and Land Affairs, Cacadu Development Agency and BCRM has been very effective in the success of the abovementioned projects. These and many other economic initiatives including Wind Farms have vast economic and employment prospects for the BCRM.

We also continue to make strides in the provision of basic services to our communities. We do so faced by financial and budget constraints due to declining grants from national fiscus. We implemented the upgrade of boreholes in Pearston to improve water provision. We also completed Phase 1 of the Somerset East Waste Water Treatment Plant, the construction of the Sportsfields in Cookhouse and Pearston has commenced. The anticipated time for completion is August 2016 of the next financial

year. The completion of construction and occupation of the new Fire and Rescue building was undertaken. The refurbishment of the Traffic building to provide better service to our community was undertaken.

THABISO KLAAS
MUNICIPAL MANAGER
BLUE CRANE ROUTE MUNICIPALITY (EC102)

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

1.2.1 BLUECRANE ROUTE MUNICIPAL VISION, MISSION AND VALUES:

The BCR municipality is "A municipality that strives to provide a better life for all its citizens". The vision is aligned to the five development priorities and the national and provincial government strategic frameworks. The plans and budgets of the BCR are also designed /developed to achieve the vision.

The main purpose of a vision statement is to link the current situation with the future potential of an area. As such a vision statement plays a central role throughout the various processes of the IDP. It guides the prioritisation of needs, the setting of objectives and the implementation of various strategies and projects. The vision statement should be brief, inspiring, realistic, relevant and mobilising. It is important to reflect on the vision and mission of the municipality as a reminder of the direction the municipality should take in deciding on programmes on projects.

The vision and mission of BCRM is:

VISION

"A municipality that strives to provide a better life for all its citizens."

MISSION

Through responsible local government, zero tolerance for corruption and creating an environment for upliftment and sustainable economic growth."

Values

- Good governance;
- Accountability;
- Public Participation;
- People Development;
- Team work;
- Integrity;
- Tolerance;
- Honesty;
- Responsibility; and trust

The Blue Crane Route Municipality falls within the jurisdiction of the Sarah Baartman District Municipality. The Municipality's area is bordered on the North-east by Nxuba Municipality, North-west of Camdeboo municipality, South of Makana Municipality and the South-west of Sundays River Valley municipality. The Blue Crane Route Municipality is located at 67 Nojoli Street, Somerset East.

Eleven councillors have been elected and the seat of the municipality is situated in Somerset East. The Blue Crane Route area comprises of rural commercial farms with three (3) towns.

- Somerset East
- Cookhouse
- Pearston

The background data which is presented gives an introduction to the demographic make-up of BCRM. According to STATSSA-Census 2011, the total population of the municipality is 36 003 inhabitants.

Population Details									
Age	1996			2001			2011		
	Male	Female	Total	Male	Female	Total	Male	Female	Total

Age: 70 - 74	230	318	548	251	359	610	320	457	777
Age: 75 - 79	151	215	366	141	231	372	152	239	391
Age: 80 - 84	52	128	180	106	160	266	80	162	242
85+	80	155	234	46	147	193	66	116	182
Total	16 468	17 874	34 342	17 034	18 372	35 406	17 682	18 321	36 003

The population of BCRM has increased by 595 people over the past 10 years. This is reflective of a 0.17% compound average population growth rate from 2001 to 2011.

StatsSA 2011 reflects that 29% of the population are young and under 15 year of age, which requires intergovernmental planning efforts to jointly focus on improved education and providing sport and recreation facilities. Sport in particular plays an important part in youth development and relevant role-players should form partnerships to promote sport initiatives and youth programmes in Blue Crane Route. The high number of children could also be an indication of a dependency on child support grants.

DEMOGRAPHICS	BLUE CRANE ROUTE AREA (STATSSA 2001)	BLUE CRANE ROUTE AREA (STATSSA 2011)	%	GROWTH % p.a.
Population Grouping	35 003	36 001		
Africans	20861	21247	59.0	0.19
Coloured	11515	11888	33.0	0.32
White	2606	2453	6.8	-0.6
Indian/Asian	21	118	0.3	46.2
Other	0	295	0.8	
Head of Household:	9 595	9 761		
Gender				
Male	6 486	5 927	60.7	-0.9
Female	3 109	3 834	39.3	2.3

Source: StatsSA

According to StatsSA a 7% increase has occurred, from 32% to 39%, in respect of female headed households between 2001 and 2011. The increase is relatively high considering that the population growth rate has been very low over a 10 year period and the male to female sex ratio has only risen marginally. This could be reflective of males migrating in search of employment opportunities outside of the municipal area or the occurrence of single mothers deciding to create a basis for their young with the option of marriage later in life.

A large segment (50.1% - StatsSA 2011) of the population speaks IsiXhosa, followed by 42.2% communicating in Afrikaans. Black South Africans account for 59% of the population, followed by 33% Coloured South Africans. Stats 2011 also indicates that 95.5% of the population were born in South Africa.

Socio Economic Status						
Year	Housing Backlog as proportion of current demand	Unemployment Rate	Proportion of Households with no Income	Proportion of Population In Low-skilled Employment (formal)	HIV/AIDS Prevalence number	Functional Literacy
2009	N/A	33.7%	N/A	58.2%	7.9%	59.3%
2010	N/A	33.2%	N/A	56.1%	8.1%	59.2%
2011	N/A	30.7%	N/A	56.0%	8.2%	60.0%
ECSECC Data 2011						

In terms of Socio Economic data, the table above illustrates a gradually declining unemployment rate (33, 7% in 2009 to 30, 7% 2011). This marginal decline does bode well for economic growth in the municipality however it still needs to be properly determined where the actual source of this employment is coming from. 56% of the labour force in the municipality is involved in low skilled labour thus earn relatively lower wages. This proportion has been declining though and thus represents the transformation of the local economy and the need for higher skilled labour force.

StatsSA 2011 reflects that poverty levels are high with 46.1% of the population not receiving any income, and a further 10.8% earn less than R801 per month, therefore technically falling under the poverty line. This is exacerbated by the fact that 65.7% of the potential labour force are not working. The population lack buying power which makes it difficult to exploit local economic development opportunities and the situation implies a high dependency on social grants. Interventions must be created and expedited to support poor communities.

The potential economic active labour force accounts for 60.2% of the total population which reinforces the need to boost the economy and stimulate job growth.

StatsSA indicates that 15.2% of the potential workforce is unemployed and a further 50.5% are not economically active in 2011. The remaining 34.3% of the labour force is employed. The overall dependency ratio is 56.8 persons per hundred population of working age. StatsSA 2011 also concludes that 1 953 of the youth in Blue Crane Route are unemployed.

Stats SA 2011 shows that 8.24% of the population over 20 years of age have not received any schooling. The figure is moderate and furthermore shows a decline or negative growth of -36.6% for the past decade (since 2001), when 4 088 or 19.6% of the population over 20 years had not undergone any schooling.

T 1.2.6

1.3. FINANCIAL HEALTH OVERVIEW

FINANCIAL OVERVIEW

The municipality aims to provide services to the community that is affordable, yet at the same time ensuring that we remain financially sustainable. The municipality has been limiting rates, tariff and fees increases to 6% year on year for the past five years up until the Revenue Enhancement Strategy was developed and approved. This strategy pointed out, amongst other things, that the municipality needed to ensure that their billing is complete and accurate; the tariffs must be adjusted to be more cost reflective; and new revenue streams / fees must be explored as a matter of urgency to improve our internal revenue base. As a result, the municipality started to increase the property rates by 10% in 2015/16 and maintained the same for 2016/17 together with 9% increases for Water, Sewerage and Refuse Removal. The higher tariff increases could be considered to have been effected a little late as the municipality's cash surpluses have reduced drastically and the current budgets not being fully cash-backed. Despite the challenges, the municipality maintained positive cash balances throughout the financial year and closed the year off with a higher closing bank balance than the bank balance at the beginning of the year. The municipality should continue to cut costs and raise new revenue to improve the poor cost coverage and liquidity ratios.

Detailed information regarding the municipality's financial performance is available in Chapter 5 of the report.

COMMENT ON CAPITAL EXPENDITURE:

The municipality performed below average in the 2015/16 year as the Capital expenditure performance reduced from 86% in the 2014/15 year to 62% in the current year. The municipality adjusted the budget downwards from R 26 million to R 20 million in February 2016. Majority of the under-performance related to the late commencement of the construction of the Sport field in Bhongweni, Cookhouse and Khanyiso, Pearston, which only started in May 2016 due to the service providers being non-responsive in the first round of tenders. This amounted to R 4 million or 20% of the under-expenditure. The municipality could also not pay the final invoice of nearly R 1 million for the Somerset East WWTW as the project was not signed off as complete and this represented 5% of the under expenditure. The 10% balance of the under-performance related to internally funded projects of Community Services and Technical Services who has the largest share of the Capital Budget.

1.4. ORGANISATIONAL DEVELOPMENT OVERVIEW

The Blue Crane Route Municipality continues to continually review its Organisation Structure, Policies and Systems to respond to its developmental imperatives as encapsulated in the Integrated Developmental Plan (IDP). The Organisational Structure (Organogram) was reviewed and was subsequently adopted by Council. During the period under review, all senior management positions remained filled. All senior managers signed Performance Agreements and performance reviews are conducted on a quarterly basis. A lot of Human Resources and Administrative Policies were reviewed and were later adopted by Council. The BCRM also embarked on the review of its bylaws and these were subsequently adopted by Council.

All budgeted new positions have been filled. The new positions in the Organogram of Internal Auditor, Health and Safety Officer and Chief Fire Officer were filled. Budgeted positions in the Traffic Department were also filled. The position of the Manager: Supply Chain and Asset Management which became vacant due to the resignation of the previous incumbent was also filled.

During the period under review, the BCRM reviewed its Employment Equity Plan and an Employment Equity Steering Committee was established. Employment Equity reports are submitted to the Dept of Labour on an annual basis. A Health and Safety Committee was established and an Induction of its members conducted. On-Site and off-site training and development of staff and Councillors was undertaken. These included academic development programmes (i.e Certificate, Diploma and Degree) and also skills and capacity building programmes. The municipality also embarked on Code of Conduct awareness among employees covering most of the BCRM departments. These are to be continued in the other directorates during the next financial year. Capacity building of Supervisors on the Disciplinary Code and Grievance Procedure was also undertaken.

1.5. STATUTORY ANNUAL REPORT PROCESS

No.	Activity	Timeframe
1	Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period	July

2	Implementation and monitoring of approved Budget and IDP commences (In-year financial reporting).	
3	Finalise the 4th quarter Report for previous financial year	
4	Submit draft year 0 Annual Report to Internal Audit and Auditor-General	
5	Municipal entities submit draft annual reports to MM	
6	Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant)	August
8	Mayor tables the unaudited Annual Report	
9	Municipality submits draft Annual Report including consolidated annual financial statements and performance report to Auditor General	
10	Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase	
11	Auditor General audits Annual Report including consolidated Annual Financial Statements and Performance data	September - October
12	Municipalities receive and start to address the Auditor General's comments	November
13	Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report	
14	Audited Annual Report is made public and representation is invited	
15	Oversight Committee assesses Annual Report	
16	Council adopts Oversight report	December
17	Oversight report is made public	
18	Oversight report is submitted to relevant provincial councils	
19	Commencement of draft Budget/ IDP finalization for next financial year. Annual Report and Oversight Reports to be used as input	January
<i>T1.7.1</i>		

CHAPTER 2 – GOVERNANCE

INTRODUCTION TO GOVERNANCE

The Blue Crane Route Municipality is a municipality with a plenary executive system combined with a ward participatory system and is governed by a plenary system of governance. This in effect means that the Decisions are taken at Council meetings through the process of resolving and or approving recommendations made at Standing Committees meetings level.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

The Constitution section 151 (3) states that the council of a municipality has the right to govern on its own initiative, the local government affairs of the local community.

Due to the nature of the municipality, Standing Committees and Council meetings are held bi-monthly. The following are the Standing Committees namely;

- Finance Standing Committee (Chaired by Cllr Majorie Scott)
- Corporate Services Standing Committee (Chaired by Cllr Bonisile Manxoweni)
- Technical Services Standing Committee (Chaired by Cllr Neliswa Yantolo)
- Community Services Standing Committee. (Chaired by Cllr Mendile Nontyi)

Blue Crane Route Municipality has established a Municipal Public Account Committee (MPAC) which is an Oversight Committee. MPAC is comprised of both ward and PR councillors, with a PR Councillor from the opposition party as the Chairperson. MPAC provides Council with comments and recommendations on the Annual Report.

POLITICAL STRUCTURE

MAYOR / SPEAKER

Name: Nontuthuzelo Marjorie Scott

CHIEF WHIP

Name: Mncedi Keith Mali

2.1 POLITICAL GOVERNANCE

COUNCILLORS

Blue Crane Route Municipality is comprised of eleven (11) Councilors; six (6) councilors are ward councilors, and five (5) proportional representative councilors. The Mayor was nominated from the five PR councilors. The ward councilors are responsible for the wards they are representing and PR councilors provide support to wards. Refer to **Appendix A** where a full list of Councilors can be found (including committee allocations and attendance at council meetings).

POLITICAL DECISION-TAKING

Political decisions and resolution are taken at the Council meeting. Decisions are taken by consensus or vote through majority of the councilors present at the meeting

2.2 ADMINISTRATIVE GOVERNANCE

The BCRM has the following Directorates in its organizational structure. These are i.e. Office of the Municipal Manager, Corporate Services, Community Services, Finance and Technical Services

**TOP ADMINISTRATIVE STRUCTURE
MUNICIPAL MANAGER (ACCOUNTING OFFICER)**

Name : Thabiso Klaas

DIRECTOR: Technical Services

Name : Ms Z. Ntile

DIRECTOR: Corporate Services

Name : Mr F.G. Cotani

DIRECTOR: Community Services

Name : Mr S.L. Mvunelwa

DIRECTOR: Financial Services

Name : Mr G.J. Goliath

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

The concept of Integrated Development Planning (IDP) is embedded on the principle of co-operation amongst various spheres of government for the purpose of providing better co-ordination and services to the community. It is in this context that co-operative governance and inter-governmental relations becomes of utmost importance. The Blue Crane Route Municipality has a relatively functional Inter-Governmental Relations Forum (IGR). The IGR meetings are held on a quarterly basis and these are chaired by the Mayor. It is in these meetings that Sector Departments are able to share their development plans with the Blue Crane Route Municipality. The challenge going forward is the consistent absence by some departments in these IGR meetings.

2.3 INTERGOVERNMENTAL RELATIONS

The BCRM continues to work well with following national departments and associations and enjoys good relations. These are i.e

- South African Local Government Association (SALGA)
- Dept of Co-operative and Traditional Affairs (COGTA)
- National Treasury

- Dept of Trade and Industry
- Dept of Rural Development and Land Reform
- Dept of Energy
- Dept of Water and Sanitation

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The municipality continues to participate and have good relations on matters of mutual interest with various provincial government departments. These are i.e

- Office of the Premier (OTP)
- Premiers Co-ordinating Committee
- Dept of Social Development
- COGTA EC
- Provincial Treasury
- Department of Human Settlements
- SALGA EC

During the period under review, the BCRM hosted the Sarah Baartman Premier's Outreach Programme which was a resounding success.

RELATIONSHIPS WITH MUNICIPAL ENTITIES

The BCRM has good relations with the Cacadu Development Agency (CDA). These relations were strengthened by the decision of the BCRM Council to dis-establish its previous entity, the BCDA. Currently the CDA oversees the co-ordination and implementation of BCRM Local Economic Developments programmes. This is managed through a Service Level Agreement (SLA) signed between the two parties.

DISTRICT INTERGOVERNMENTAL STRUCTURES

The municipality enjoys good relations with our District Municipality, the Sarah Baartman District Municipality. Councillor Manxoweni is the BCRM Representative in the District Municipality. We participate in the following district IGR structures, these are i.e.

- District Mayor's Forum
- District MM's Forum
- DWIF
- District PMS Forum

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

Public accountability and participation plays a very important and cardinal role in the promotion of democracy in local government. It is in this regard that during the year under review, the BCRM reviewed its Public Participation Strategy which was later workshopped with councillors and officials. The reviewed Public Participation Strategy was subsequently adopted by the BCRM Council. The BCRM uses the Ward Based Planning model to engage the community on matters related to the review of the IDP. This places public accountability and participation at the basic level of community engagements.

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

To enhance and improve effective communication, during the year under review the BCRM has employed a Media and Communication Officer. This has brought about improvement in the communication innovation and co-ordination of communication and events.

Various platforms are used to engage the community, encourage public participation and to ensure a participatory government. Public engagements are conducted throughout the year using different forums, meetings and events.

Forums:

Currently the municipality has two forums as means of public engagement which are IDP/Budget and PMS and Inter-Governmental Relations (IGR)

- **IDP/Budget and PMS Forum**
 - The forum is functional; it seats once a quarter.
 - It is chaired by the Mayor, M.N Scott and attended by Councillors, Community Development Workers and BCRM Management including key staffers ie Communications Officer, IGR Officer etc. And it is open to the members of the public.
- **IGR**
 - Seats once a quarter in conjunction with the IDP/Budget and PMS Forum

Different forms of meeting seat with the municipality

- **Committee Meetings**
 - The municipality has four committee meetings as per the directorates of the municipality (Not sure whether to mention them or not)
 - They seat once a quarter and when there is a need.

- They are attended by all councilors, management and staff members of the said directorate

- Council Meetings

- Meetings seat once a quarter and when there is a need for a council resolution.
- They are attended chaired by the Mayor with all councilors, management and members

-Public/Community Meetings

- Public meetings are held in two ways; at times they are requested by the municipality to the community to address a certain issue that affects service delivery such water crisis or electricity cut. At other times they are requested by the public to the mayor/municipality to address any communal issue that they need addressed by the municipality/council.

The following structures have been established to enhance public participation, these are i.e

- Mayoral Outreach /Imbizo
- Ward Based Planning meetings
- IDP Representative Forum
- Inter- Governmental Relations (IGR) Forum
- Ward Committee
- Media
- BCRM websites

WARD COMMITTEES

Ward committees are meant to encourage participation by the community – their job is to make municipal council aware of the needs and concerns of residents and keep people informed of the activities of municipal council.

Ward committees are made up of a ward councilor and no more than ten people who are elected from the ward and who serve voluntarily for a five-year term. Municipal council must make rules regarding the election of ward committee members, including how often meetings take place, and the dissolution of ward committees.

The ward councilor is responsible for organizing meetings and setting the ward committee agendas (s. 72, 73, 77 of the Municipal Structures Act). If the ward councilor does not attend the meeting, the ward committee may set the agenda itself.

The municipality implemented the ward committee system and all wards were formally constituted however ward committees were not as effective in the financial year under review and this may be attributed to the fact that they were going towards the end of their terms. The area which had dysfunctional ward committees was in wards 1 and 6 in Cookhouse and this was caused by the heightened political activity.

Public Meetings						
Nature and Purpose of Meeting	Date of events	Number of Participating Municipal Councillors	Number of Participating Municipal Administrators	Number of Community Members attending	Issues addressed (Yes/No)	Date and manner of feedback given to community
Ward 1 IDP/Budget Review	08/09/15	2	4	34	Yes	Draft budget meeting
Ward 1 IDP/Budget Review	26/04/16	2	6	80	Yes	
Ward 2 IDP/Budget Review	07/09/15	2	8	51	Yes	
Ward 2 IDP/Budget Review	25/04/16	1	7	44	Yes	
Ward 2 IDP/Budget Review	05/05/16	1	7	15	Yes	
Ward 3 IDP/Budget Review	09/09/15	1	5	46	Yes	
Ward 3 IDP/Budget Review	28/04/16	1	5	50	Yes	
Ward 4 IDP/Budget Review	09/09/15	2	6	63	Yes	
Ward 4 IDP/Budget Review	28/04/16	2	5	80	Yes	
Ward 5 IDP/Budget Review	10/09/15	2	6	53	Yes	
Ward 5 IDP/Budget Review	03/05/16	1	8	15	Yes	
Ward 5 IDP/Budget Review	04/05/16	2	8	47	Yes

Ward 6 IDP/Budget Review	26/04/16	3	7	36	Yes	
Draft Bylaw Reviewal – Ward 1&6	17/11/15	1	4	85	Yes	
Draft Bylaw Reviewal – Ward 4	19/11/15	1	3	14	Yes	
Draft Bylaw Reviewal – Ward 5	10/06/15	3	7	48	Yes	
Draft Bylaw Reviewal – Ward 2	24/05/16	3	3	3	Yes	
T 2.4.3						

COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:

The Public Meetings enabled the municipality to ensure maximum participation of communities in municipal decision making processes. The processes ensured that the municipality adopts its IDP and budget and the adoption of municipal bylaws as well.

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes

Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
* Section 26 Municipal Systems Act 2000	
T 2.5.1	

COMPONENT D: CORPORATE GOVERNANCE

OVERVIEW OF CORPORATE GOVERNANCE

The Municipal Council is the highest structure in terms of decision making. The Standing Committees are convened bimonthly and make recommendations to Council. The following governance structures are in place and these are: Audit Committee, Internal Audit and Municipal Public Account Committee (MPAC).

Blue Crane Route municipality has a functional Internal Audit Unit under the leadership of the Chief Audit Executive as from 01 July 2015. The Internal Audit unit is also staffed by one internal auditor and is on the process of recruiting two internal audit interns to assist with the many responsibilities of the Unit. Internal audit advises Management and the Audit Committee on issues of governance, risk management, internal controls, fraud prevention and compliance with legislation. The internal Audit of the municipality is fully independent as they report to the Audit Committee functionally and to the Municipal Manager administratively.

Blue Crane Route Municipality Council appointed 4 independent audit committee members in 2015/16 financial year. The Audit Committee has set at least 4 times for the financial year. The Audit Committee is responsible for advising management and Council on issues of financial management and reporting, internal control, risk management, Information Technology, performance management and fraud. The audit committee reports to council on a Quarterly basis with recommendations for improvements where there are deficiencies.

2.6 RISK MANAGEMENT

Blue Crane Route adopted an Enterprise Risk Management Framework that guided council and management in identifying, rating, responding, monitoring and evaluating as well communicating risks within the municipality. A strategic risk assessment workshop was held during the beginning of the financial year with the assistance of Internal Audit Unit. High risks, medium and low risks were identified within the risk appetite of the municipality and actions to mitigate risks were identified and captured on a risk register. The following risks were the high risks identified in the municipality:

- a) Poor discipline of all employees affecting service delivery or productivity.
- b) Non-compliance with applicable legislation, policies and procedures
- c) Ageing infrastructure impacting on the quality and supply of water
- d) Poor fleet management resulting in plant poor conditions that impact on waste management
- e) Limited economic development within the municipal boundaries and failure to capitalise on revenue earning opportunities

The municipality is also planning to engage on operational risk assessment and response in the ensuing financial year ending 30 June 2017.

2.7 ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI-CORRUPTION STRATEGY

The municipality approved a Fraud and Anti-Corruption Policy and Prevention Plan that was used as part of the internal controls for the financial year. The Fraud Prevention Policy made reference to implementation of financial internal controls, implementation of Human Resources Policies and commitment to Code of Conduct by both councillors and employees. The municipality made use of Internal Audit to review compliance with policies and legislations and deviation were reported to the Audit Committee that comprises of all competent and independent individuals. Internal Audit and the Audit Committee recommended improvements to all the weaknesses that were identified during the year. The municipality was however a victim of a syndicate that has been attacking the district and was unfortunately defrauded of R800 000 during January 2016. This case has been reported to the police and referred to the Commercial Crimes Unit. The case was also reported to all the required authorities as well the Audit Committee and The Auditor General. The case is still under investigation for further actions to be taken by Council. Supply Chain was identified as a weak area in terms of compliance with laws and regulations as well as monitoring of service providers. Recommendations were made on how to improve and management is currently reviewing policies and developing procedure manuals to deal with the anomalies. Recommendations made by the Audit Committee for the year 2016 are set out at **Appendix G**.

2.8 SUPPLY CHAIN MANAGEMENT

The Municipality has a Supply Chain Management Policy in place which was reviewed during the 2015/16 financial year and approved as a reviewed document on 30 May 2016. The objective of this policy is to provide a policy framework within which the Municipal Manager, Chief Financial Officer and

other Senior Managers must institute and maintain a Supply Chain Management System which is transparent, efficient, equitable, and competitive. The policy also ensures the principles of best value for money for the municipality is outlined; applies the highest possible ethical standards; and promotes local economic development. By adopting this policy the council further pledged itself and the municipal administration to the full support of the Proudly South African campaign and to the observance of all applicable national legislation, including specifically the:

- Preferential Procurement Policy Framework Act No. 5 of 2000 and its regulations;
- Broad Based Black Economic Empowerment Act. No. 53 of 2003 and any applicable code of practice promulgated in terms of that Act; and
- Where applicable, the council also pledges itself to observe the requirements of the Construction Industry Development Board Act No. 38 of 2000 and its regulations.

Reports on the implementation of the SCM policy are submitted quarterly to the Accounting Officer; the Mayor; and Council. The last quarterly report was tabled to Council on 26 July 2016. The SCM Annual report on the implementation of the SCM policy for the 2015/16 financial year was submitted to the Accounting Officer; Mayor and the Council on 26 July 2016, according to the regulations.

The municipality employed the Manager: Supply Chain and Asset Management in June 2015 financial year, but the incumbent resigned and left the institution at the end of August 2015. The municipality then re-advertised the position and filled it with an internal incumbent that has led the section since 2010. The municipality is however yet to fill the incumbents previous post of procurement officer after the organogram is approved where we have proposed the post to be amended to be Accountant: Supply Chain Management. It is anticipated that when all the SCM posts are filled, the procurement processes will improve and the audit findings be reduced to a minimum

2.9 BY-LAWS

By-laws Introduced during Year

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART 1)

INTRODUCTION

Service delivery is at the forefront of what BCRM aims to achieve. It is vitally important that all municipal structures and entities are optimally harnessed in such a way that will make the delivery of services to the residents a reality. This chapter deals with service delivery of basic services over the past financial year and gives a detailed breakdown of the various activities, achievements and challenges that the municipality has faced with regards to service delivery. BCRM classifies basic services as Water, electricity, sewer, refuse services, infrastructure and housing.

This chapter gives an overall picture of where the municipality is placed in terms of this important function.

COMPONENT A: BASIC SERVICES

INTRODUCTION TO BASIC SERVICES

Service delivery is at the heart of what BCRM aims to achieve. It is vitally important that all municipal structures and entities are optimally harnessed in such a way that will make the delivery of services to the residents a reality. This chapter deals with service delivery of basic services over the past financial year and gives a detailed breakdown of the various activities, achievements and challenges that the municipality has faced with regards to service delivery. BCRM classifies basic services as Water, electricity, sewer, refuse services, infrastructure and housing.

3.1 WATER PROVISION

INTRODUCTION TO WATER PROVISION

Somerset East

The bulk raw water supply for the town of Somerset East consist mainly of the extraction of Orange-Fish River Scheme water from the Somerset East Irrigation Sub-Area Canal (SEISA), supply from boreholes and supply from fountains and mountain runoff in the Bestershoek area. Raw water is extracted from the SEISA Canal where it is currently pumped to the Lake Bertie and Van der Walt dams where after it is purified at the Orange-Fish and Bestershoek Water Purification works at a rate of 94m³/hr. The allocated extraction limit from the Canal is 100m³/hr. The raw water supply has recently been upgraded to 252 m² / hr to the dams as mentioned above.

The Orange-Fish Purification Works was designed to treat a capacity of 54l/s, but can only achieve a maximum output of 45l/s. The total amount of raw water that was pumped from the SEISA Canal in the last year was measured to be Canal was approximately 300 000m³ which is way above the registered volume of 144 000 m³.

During rain, runoff water accumulates in the Bestershoek catchment area. The runoff supplies the Bestershoek Dam, which overflows into the Van Der Walt Dam lower down in the same valley. Overflow water from the Van Der Walt Dam is channelled to Lake Bertie. All three holding dams are earth dams. Lake Bertie is situated approximately 2.7km south east from the Van Der Walt Dam.

Several fountains draining from the Bestershoek Valley and mountains feed into the Bestershoek Dam. These fountains have been developed in the past and feeds down to the Bestershoek Dam in pipelines. During dry seasons or drought the yields of the fountains seized.

Raw water is extracted from the outlet structure of the Dam to the Bestershoek Purification Works beyond, by means of gravity. The incoming raw water supply is measured at the works. Raw water is also pumped from the Van Der Walt Dam lower down the valley to the Purification Works at Bestershoek having a purification capacity of 27l/s.

Cookhouse: Extraction from Hougham-Abrahamson Canal

The extraction from this point is by means of a pump system as well as from the upgraded Orange Fish canal gravity system. The water is extracted from the Hough Abrahamson canal by means of flooded suction from a sluiced take- off into the pump house from where it is pumped by means of a 150mm diameter pipeline to the water treatment works with a capacity of 53l/s. The length of the pipeline is measured to be approximately 1800m. An agreement existed between the Hougham-Abrahamson Irrigation Board and the Cookhouse Transitional Council for the extraction of a maximum of 100m³/hr subject to a maximum of 365 000m³/annum (29.2ha) of raw water . Currently the measured extraction rate is calculated to be approximately 52m³/hr on average. The pump station is equipped with 2 pumps with 22kW electric motors with a maximum capacity of approximately 55m³/hr.

No records of registration exist of the 40Ml retention dam at the new WTW.

Cookhouse: Extraction from Boschberg Canal

The Boschberg Canal was originally constructed - as a community scheme by the members of the Boschberg Sub-Area (formerly the Boschberg Irrigation Board) - to a capacity that was determined by the needs of the members. The Scheme was funded by the members. The Boschberg Canal feeds from the Orange-Fish River Canal and supplies water to its members downstream until it ends at the Van Aardt Dam adjacent to Cookhouse - privately owned by a local farmer.

With the serious shortage of portable water for the town of Cookhouse, the Cookhouse Local Council approached the Boschberg Sub-Area at the time regarding an interim agreement that the Council would be able to use "excess overflow water" not utilized at the time by the members of the Board. A verbal agreement was made that in exchange for assistance in maintaining the Canal and the sealing of the Van Aardt Dam, the Council could utilize the excess water. There is no evidence of any volumes mentioned.

The Council, as result of the "gentlemen's agreement", had a sluice distributor and a pipeline constructed from the end of the Boschberg Canal to the new water treatment works in Cookhouse. The pipeline is 315mm dia. uPVC. The Municipality made use of the excess water from the Boschberg Canal by means of this system, but could never rely on a guaranteed supply from the Canal. In 2005 the Blue Crane Municipality formally applied to the Department Of Water Affairs for an allocation of water via the Boschberg Canal. It was turned down by the Boschberg Sub-Area stating that no permanent excess capacity was available. They did however agree to temporarily assist should excess capacity be available.

NOTE: The above supply arrangements have been changed with the new direct gravity supply directly from the Orange Fish main canal.

Pearston: Extraction from Boreholes

The water supply to the town of Pearston is completely dependent on the supply of water from boreholes. In total five boreholes contributes to the bulk supply of water to the town.

The town of Pearston recently had three boreholes which did not have any details with regards to their safe yield data and depth. This has been rectified through a project to augment the Pearston water supply, which also established safe yield to ensure that the boreholes do not run dry.

Major challenges in Water Services and Remedial Actions

The following challenges are faced by the BCRM:

Pearston

Pearston obtains its water from boreholes only. Close monitoring of the abstraction is required to ensure sustainable and sufficient water supply on a long term for Pearston. Safe yield test results established on an ACIP project for Augmentation of Community Water Supply are a positive step towards borehole management, however data logging is needed to monitor the level of water in the boreholes for more accurate and reliable monitoring of the boreholes.

Pearston Water Supply is also faced with a challenge of not being able to supply water during power outages as its abstraction is entirely dependent on electricity. Back up power has been proposed for some of the abstraction point to ensure constant, reliable water supply.

Somerset East

Water is obtained from surface water that is seasonal and rainfall dependant, as well as water from the Orange-Fish Irrigation Scheme. The town is dependent on the only reliable source, being the Orange-Fish Canal supply. A project has been completed and it's being implemented for a new bulk water pipeline to ensure that the town will be able to overcome any water shortage threats in the future.

Somerset East also faces a challenge of dilapidated water reticulation infrastructure and the use of cement asbestos pipeline which is a health hazard. However, BCRM is sourcing funding for upgrade of its infrastructure to remedy the backlogs and ensure uninterrupted provision of basic service delivery of good standard.

Somerset East is also backed up by fountains which deposits straight to the westview reservoir and to the storage dam at Bestershoek. There five existing boreholes which are not utilised but can at any given time act as an emergency back for Somerset East. Somerset East also extract water from the canal at an amount approximately 3 times the registered amount of 204 000 m³. Municipality needs to apply to DWS to increase the annual registered volume for abstraction from the canals.

Cookhouse

Due to the fact that Cookhouse was administered by the old Transnet, all assets and rights still resides with Transnet. The town is dependent on water from the Orange-Fish Irrigation Scheme and has no surface or borehole sources.

The present water supply to the town is not reliable, and a pipeline is recently completed from the Orange- Fish Scheme to secure sustainable water to the town. However this line is only approximately 35% of the bulk line to Cookhouse which needs an upgrade.

Cookhouse raw water supply is currently sourced from two canals to try and meet the demands of the Cookhouse area. The canals are Boschberg canal which is gravity feed to the plant and Hougham-Abrahamson canal which is equipped with two pumps, duty pump and a standby pump. Cookhouse has a registered volume of extraction from the canals of 144 000³ but currently extract almost 5 times the registered volume.

Water losses

The total water losses in the municipality are estimated to be at 74 ML/annum. Domestic activities account for the largest amount of the water usage and losses thereof in Blue Crane Route Municipality, industries being the biggest user. According to available data, domestic water usage is

increasing by approximately 700 cubic meters per day for the financial years leading to 2013/2014. Industries have however seen an increase in water usage of approximately 50 cubic meters per day.

The municipal water balance is not as accurate as it should. Open space such as parks and sports fields are not metered and therefore used in these premises are accounted for as water losses or unaccounted for. Water used through fire hydrants is also not accounted for and contributes to non-revenue water or water losses. However, on construction/ upgrading of sports fields and parks projects or any other social amenities project, the water is metered and will be incorporated to the water balance sheet of the municipality. The municipality still needs to undertake water balance on a monthly basis to track abnormal water losses well in advance instead of the yearly water balance.

Projects

1. Augmentation of Pearston water supply
2. Drilling of new boreholes
3. Yield testing Pearston boreholes
4. Construction of a chlorine room at Orange Fish WTW
- Construction of a chlorine room at Cookhouse WTW
6. Development water safety plan & water resource maintenance plan
7. Construction of backwash system

Maintenance:

1. Routine maintenance
2. Fixing of pipe burst
3. Annual cleaning of reservoirs
4. Fixing water and wastewater pumps
5. Fixing rotating bridges in Somerset East and Cookhouse WTW
6. Water safety plan and Water Resource maintenance plan were developed and approved by Council.

COMMENT ON WATER USE BY SECTOR:

Domestic activities account for the largest part of water usage in BCRM, industry being the second largest consumer. Agricultural activities are supplied by private boreholes in Blue Crane Route Municipality, with only electricity being supplied by the Municipality to the farmers.

Water Service Delivery Levels				
Description	2012/13	2013/14	2014/15	Households 2015/16
	Actual No.	Actual No.	Actual No.	Actual No.

Total number of households*	8 908	8 908	8 908	8 908
* - To include informal settlements			T 3.1.3	

COMMENT ON WATER SERVICES PERFORMANCE OVERALL:

BCRM has experienced a number of challenges with regards to water services of these include the following:

- Pearston obtains its water from boreholes only. The augmented water supply in Pearston ensure that the town has constant and sustainable water supply. However, under the project to augment Pearston water supply, two boreholes were not connected due to budget constraints and therefor a follow up project has been initiated to complete phase two of water supply in Pearston. Pearston does not have surface water and entirely relies on borehole water, this means that the water supply in Pearston is dependent on mechanical means to abstract the water and to a certain extent for distribution of the water.
- Somerset East Water is obtained from surface water that is seasonal and rainfall dependent, as well as water from the Orange/Fish Irrigation Scheme. The town is dependent on the only reliable source, being the Orange/Fish Canal supply. A project has been completed and it's being implemented with a

new bulk water pipeline to ensure that the town will be able to overcome any water shortage threats in the future.

- Due to the fact that Cookhouse was administered by the old Transnet, all assets and rights still reside with Transnet. The town is dependent on water from the Orange/Fish Irrigation Scheme and has no surface or borehole sources. The present water supply to the town is not reliable, and a pipeline is required from the Orange-Fish Scheme to secure sustainable water to the town

3.2 WASTE WATER (SANITATION) PROVISION

INTRODUCTION TO SANITATION PROVISION

Sewer outfall is managed by various methods in the Blue Crane Route. Apart from the informal settlements and 5 House in Somerset East, the entire community of the Somerset East urban area is serviced with a waterborne sewer system. A substantial capital outlay has been budgeted for and is being spent; further provision must be made for upgrading the facility to a waterborne reticulation system. The BCRM has eradicated the Bucket System in line with the national priority requiring all bucket systems to be completely eradicated, however 5 buckets still exist in formal settlements and informal settlement still remain with the backlog mainly due unavailability of suitable land. The BCRM's objective is to supply each consumer with full water borne sanitation system, if technically and financially feasible.

Sanitation Services delivery strategy and main role-players

As a WSP and a WSA, the Municipality takes full responsibility for sewage disposal and treatment in all towns.

Level and standards in Sanitation Services

BCRM has not eradicated all buckets and some residents in formal settlements and the entire informal settlements are still using buckets. BCRM is in the process of upgrading the bulk WWTW facilities in all towns and the status is as follows:

Pearston

The Municipality is in a process of seeking funding for an assessment of the Pearston WWTW and upgrade thereof based on the findings and growth patterns of the area. Currently the pond system being utilised is not able to effectively cope with influent of Pearston. The entire town/ suburb area in Pearston utilises septic tanks and needs to be connected to a waterborne sewerage system. However, in order for these upgrades to be possible, the bulk capacity (in terms of treatment) should be adequate and therefore the Wastewater treatment plant in Pearston will need to be upgraded prior.

Somerset East

Residential reticulation in the town is old and requires intensive maintenance actions. The municipality has recently upgraded the pond system in Somerset East to an activated sludge system to cope with the hydraulic load of 2.5Ml per day and comply with Department of Water and Sanitation effluent requirements.

An additional funding of R 7 million was received from mig earmarked for Somerset East WWTW for construction of sludge drying beds. The scope of works for the drying beds have been reduced from 16 to 4 drying beds. This was determined by the additional funding received which will only be able to fund 4 drying beds instead of the planned 16 drying beds. The remainder of the sludge drying beds(12) will be constructed in the next phase. A Technical Report will be prepared and an application will be done for MIG funding.

Cookhouse

The bulk WWTW needs to be upgraded and the project is under-design. MIG funds have been allocated to the project, but the progress has been retarded due to an EIA study that could not be completed in the past three years. However the Record of Approval has been granted and the municipality has also applied to DWS: RBIG for complete funding to be able to complete the project and unlock the housing backlog in Cookhouse from the perspective of bulk capacity of sanitation.

BCRM initiated an application for the complete upgrade of the plant to DWS: RBIG for funding. At the end of 2015/16 Municipal Financial Year, the Technical/ Design report was approved by DWS and recommended for funding by The Eastern Cape Appraisal Committee for water and wastewater related infrastructure projects.

COMMENT ON SANITATION SERVICES PERFORMANCE OVERALL:

The Blue Crane Route Municipality waste water treatment facilities are generally overstressed and operating over capacity. The Municipality is however planning to upgrade the facilities and is currently busy with a construction of the Somerset East waste water treatment works and awaiting RoD of the EIA to begin with the upgrade of the Cookhouse waste water treatment works. The BCRM plans to eradicate all bucket systems and septic tanks within the municipality through the Department of Human Settlement within the next 5 years.

The Blue Crane Route Municipality waste water treatment facilities are generally overstressed and operating over capacity. The Municipality is however planning to upgrade the facilities and is currently busy with a procurement for second phase of the Somerset East waste water treatment works. The Cookhouse waste water treatment works project approved under MIG is due to commence towards the end of 2016/17 FY for fencing. The major phase of the plant, is still awaiting funding and the application was submitted to DSW: RBIG division for consideration and the design report was accepted and approved for implementation by DWS. The BCRM plans to eradicate all bucket systems and septic tanks within the municipality through the various programmes supported and funded by the Department of Human Settlement, more especially for formal house holds.

3.3 ELECTRICITY

INTRODUCTION TO ELECTRICITY

The BCRM is a licensed distributor of Electricity within the area and is registered with NERSA licence number EC102. Electricity is being distributed by the Municipality to its consumers of about 8691. The Blue Crane Route Municipality has vast distribution networks consisting of a combination of urban and rural infrastructure to ensure a sustainable electricity supply to its consumers.

It is a challenging task to maintain this vast electrical infrastructure and expand, upgrade, or refurbish with the available funding. The agricultural sector is the biggest electricity consuming sector and is growing.

Maintenance of street lights

BCRM had a problem of street lights that were working day and night adding to the 24% losses. Material was bought and new control boxes were built and installed to control the street lights. Kwh meters were installed to measure consumption. Lighting switchgear was installed in Aeroville to reduce loading and correct a fault street lights that were constantly tripping.

BCRM procured vehicles for the electrical serviced department to speed up service delivery as well as response time to problems.

The electrical services department is in a process of auditing all kWh meters to establish the main source of the losses.

COMMENT ON ELECTRICITY SERVICES PERFORMANCE OVERALL:

Blue Crane Route Municipality's electricity covers an area of approximately 9900km²; this includes the three (3) towns, Somerset East, Cookhouse and Pearston, as well as an extensive farming community. The supply ranges from a full connection in rural and urban areas and prepaid to a ready board system, the Municipality has its own distribution licence to supply electricity to rural and urban areas within its boundaries. Our maximum demand hovers in the region of 15, 5 MVA.

Maintenance:

Maintenance was done in high masts lights in all the three towns
Street lights were repaired in the following areas:

- Francisvale
- Mahali
- Vosloodal
- Protea Crescent
- Belgravia

3.4 WASTE MANAGEMENT (THIS SECTION TO INCLUDE: REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

INTRODUCTION TO WASTE MANAGEMENT

Refuse collection services are provided to all the residents of BCRM in Cookhouse, Pearston and Somerset East. There is a set schedule for the collection of household and business refuse. This type of waste is collected at least once a week in different days in residential areas of Somerset East. In Cookhouse and Pearston household and business refuse is collected Monday's only and the rest of the remaining days in that week are used to collect garden refuse.

The challenge with the collection of garden refuse is that it is not regulated by the municipality. Members of the community dump any day of the week and some dump big heaps. Some even create illegal dumps as they do not want to dump in front of their own properties and so they dump on the corners of the streets.

The municipality has included a 5 ton truck and a skidsteer in its 2016/17 capital budget. This will improve the collection of garden waste.

All three of the municipal solid waste disposal sites are permitted but none is managed according to the minimum requirements for landfill sites. Since the adoption and approval of the Integrated Waste Management Plan in 2008 by Council, the department has not been able to implement any recommended project to address waste management challenges. This is due to lack of funding as the municipality depends on MIG funding for big projects. With the help of the Sarah Baartman District Municipality, the IWMP is in the process of being reviewed to be finalised in the 2016/17 financial year.

The Department of Environmental Affairs through a Cokisa Consulting Company has assisted the municipality with a weigh pad and trained two youth to record waste volumes at the Somerset East landfill site. The other seven participants of the Youth Jobs in Waste Programme are involved in the environmental awareness campaigns to eradicate illegal dumps. These campaigns are planned to take place quarterly.

COMMENT ON WASTE MANGEMENT SERVICE PERFORMANCE OVERALL:

The following are the waste management challenges as experienced by BCRM in the 2015/16 financial year.

- 1) Increased disciplinary hearings.
- 2) Constant breakdown of vehicles and machinery
- 3) Inadequate collection of revenue on refuse removal services
- 4) Businesses are using the public refuse drums for their waste to avoid paying for the extra waste generated.
- 5) Illegal dumping by members of the public still continues despite awareness campaigns conducted.
- 6) Poorly managed landfill sites due to lack of resources for maintenance

In order to overcome some of the above challenges, the following interventions were implemented in the financial year in questions

- 1) **Environmental Awareness campaigns** – These campaigns focused on educating members of the public on waste management issues and waste collection schedules of the municipality including the bylaws applicable. This is done in cooperation with the Community Works Programme participants, Youth Jobs in Waste participants, Environmental Health Practitioners and the Waste Management Section of the Municipality. There is quite an improvement in this area.
- 2) **Eradication of Illegal dumps** - Illegal dumps are identified on continuous basis, cleaned and beautified. During these campaigns members of the public living closer to the dumps are encouraged to adopt these beautified spots and ensure that no one dumps again.
- 3) **Lobby funding for Recycling Initiatives** – At the moment recycling is done at a lower scale by a private company. The department embarked on lobbying funds to improve recycling initiatives so that there is very little waste that goes to the landfill sites. Through IWARS DTI has provisionally approved funding for the recycling project in the area. Three buy back centres will be established in the three towns. Some of the wheely bins will be distributed to schools during the 2016/17 awareness campaigns and schools will be encouraged to separate waste at source and sell the recyclables to the buy- back centres.

3.5 HOUSING

HOUSING SECTOR PLAN

The Municipality's has recently reviewed its Housing Sector Plan which was finalized in October 2014. The Housing Sector Plan was funded by the Department of Human Settlements in the Eastern Cape Province and was conducted by Gibb Engineering & Science Consultant. The Housing Sector Plan estimates the housing demand profile to be approximately 4800; this estimate is derived from the beneficiary information registered on the municipal housing office. The majority of the registered beneficiaries earns less than R3200.00 per month and can be assumed to qualify for the low cost housing subsidy.

The HSP indicate that the greatest need for housing is in Somerset East (2872) followed by Cookhouse (984) and lastly Pearston (667). Information from HOUSING

NEEDS REGISTER

There is a greatest need for middle-income housing, particularly in Somerset East. In light of the above attempts were made by Blue Crane Route Municipality (BCRM) and Eastern Cape Department of Human Settlements (ECDoHS) for an application to develop flats to accommodate the middle-income /rental stock at CRU area. Somerset East and Cookhouse have been experiencing a shortage of suitable land for housing development. There is a need for accommodation as a retaining strategy for professional staff employed in various capacities within the municipal area. .

Housing Needs Challenges

The main challenge facing BCRM remains the shortage of publicly owned and strategically located land for human settlement development. Most of the land parcels required is not in the municipal ownership and needs to be purchased. While a number of housing projects have been identified there is still a need for approximately 100 hectares of land to meet the current housing demand.

The area that is severely affected is Cookhouse as it is landlocked due to the fact that the large portion of land is owned by Transnet who have no intention of relinquishing the land despite the fact that they don't have any immediate plans for it.

The other impediments are the inadequate bulk provision (Electricity, water and sewerage). With regards to Wastewater Treatment Works a project is underway to upgrade the Somerset East facility and is scheduled for completion by the next financial year. The Cookhouse project is still at planning stages and will be implemented as soon as adequate funding is secured.

Water provision: phase 1 of the Cookhouse bulk water supply is finished and plans are in place for the second phase to commence as soon as funding is secured.

Plans for Pearston water provision are in place to investigate the option of diverting water from Orange River Canal for provision of sustainable water supply to Pearston.

Municipal Housing Profile

Approximately 74% of households live in formal residential dwellings and more than 58% earn below R3200 and would qualify for low cost housing subsidy. 5,1 % of households live in informal dwellings within the BCRM area and this in essence indicates that the number of informal settlements is smaller than most of the municipalities within the district. About 18% of households live in farms, forming part of the rural community. Approximately 35,4% of the households are headed by women while there are no child headed households. Currently the municipality does not have blocked projects

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

INTRODUCTION TO FREE BASIC SERVICES AND INDIGENT SUPPORT

BCRM provides free basic services to those classified as indigent in the municipality. Families that are classified as indigent are determined by the municipality through an indigent policy. During the 2015/16 financial year, the threshold to qualify for Indigent Assistance was increase by a further R500 per household over and above the annual pension rate increase. The municipality maintains a register which allows it to document all those households needing access to free basic services. The indigent policy seeks to realise the following objectives:

- The provision of basic services to the community in a sustainable manner within the financial and administrative capacity of the Council. In this regard the Municipality is able to mitigate the impact of poverty and unemployment;
- The financial sustainability of free basic services through the determination of an appropriate tariff system that contributes to such sustainability through cross subsidization;
- Establishment of a framework for the identification and management of indigent households including a socio-economic analysis where necessary and an exit strategy;
- The provision of procedures and guidelines for the subsidization of basic charges and the provision of free basic energy to indigent households; and
- Co-operative governance with other spheres of government.

COMMENT ON FREE BASIC SERVICES AND INDIGENT SUPPORT:

As reflected in the introductory remarks, the municipality provides indigent assistance to all households with an income less than two state pensions plus R500. The access to this assistance is through a formal application process whereby customers can apply personally at the Municipal Offices or participate in the annual Indigent Register Update programme where the municipality conducts visits to all wards to capture these applications.

During the year under review, the municipality conducted various Masakhane Outreaches from September 2016 up to June 2016. Field work was done by visiting Community Halls throughout this period whereby Masakhane awareness was created. These outreaches saw the Indigent register maintain its numbers from 3986 in July 2015 to 4383 in June 2016. Feedback sessions on the Indigent Register were done in June 2016 which led to the final adoption of the Indigent Register on 30 June 2016.

The Indigent Steering Committee (ISC) continued its seating during this financial year with four meetings being convened for the year. Although four meetings were convened, the municipality fell short of its target of 5 meetings for the year. The ISC is comprised of the Mayor, in her capacity as Finance Standing Committee Chairperson, as Chairperson; all 6 Ward Councillors; the 5 Community Development Workers (CDWs); and relevant Finance Department officials. The target is to continue with these meetings to improve the provision of Free Basic Services to the deserving community.

COMPONENT B: ROAD TRANSPORT

3.7 ROADS

INTRODUCTION TO ROADS AND STORMWATER DRAINAGE

Roads form one of most basic infrastructural components necessary for development. A well-functioning and well maintained road network creates a positive economic environment influencing the economic activity of the area. In the context of the BCRM, the extent and quality of the existing road network has a significant impact on both the local economy and the community as a whole, since it fundamentally impact on the mobility of both people and produce into the area.

In an economic context, this specifically affects the agricultural related industries and tourism, in particular. If the road network is not sufficiently maintained it could have a negative influence on the potential growth rate of the leading economic sectors. The existing bitumen surfaced roads are deteriorating, as the Municipality does not have sufficient funding for road maintenance.

The general status of roads in the urban areas of Blue Crane Route ranges from tar surfaced in central business areas and higher income residential areas to gravel surfaced and graded roads in the middle and low income areas respectively. The maintenance of roads throughout the entire Blue Crane Route Municipal Area (urban and rural) is problematic due to the lack of funding. Urgent attention and funding is needed to address this problem.

The existing Storm water drainage is maintained and upgraded by the team on a weekly basis. The municipality's responsibility is to ensure that when there are heavy rains all the storm water drains are unblocked.

The projects implemented for the upgrading of gravel road, the municipality ensures that, it caters for the storm water gradient slope to re-route the water flow coming from the mountains to the nearby river.

Challenges experienced:

- The municipality's residential areas are below the mountains and most of the time it affects the roads and the driveways of houses. This gives the municipality the challenge of receiving complaints from the community members about their houses being damaged by the strong water flowing from those mountain falls.
- The budget is very limited to address all the stormwater drainage challenges because currently only using the maintenance budget which does not do much in addressing these issues.
- Most grant funding schemes only consider application for funding for previously disadvantaged areas. This leaves the municipality with a backlog in town areas as the municipality does not collect enough revenue to carry out complete maintenance of these areas.

Projects:

- Upgrading stormwater at taxi rank in Francis street.

Maintenance:

- Roads and stormwater maintenance i.e. fixing of potholes, construction of speed humps & driveways, fixing of kerbs and concrete channel, side walk, grading of gravel roads.
- Roads and stormwater maintenance plan was done and approved by Council.

COMMENT ON THE PERFORMANCE OF ROADS OVERALL:

The Municipal road infrastructure mainly composes of collectors and access roads (i.e. Class 4 & 5 roads), approximately 60% of the road infrastructure is gravel roads/ not surfaced. The municipality does not have sufficient budget for maintaining the existing road infrastructure and the current grant allocations are not sufficient to eradicate the road infrastructure backlog. The municipality is however considering other avenues to find the road infrastructure maintenance funds or upgrade funds.

BCRM is in the process of developing a business plan for the formulation of the Storm water Master Plan, to be able to address all the challenges of storm water drainage system in all the areas.

COMPONENT C: PLANNING AND DEVELOPMENT

3.8 INTRODUCTION TO ECONOMIC DEVELOPMENT

EPWP:

BCRM has received funding for job creation through EPWP incentive grant. This programme is targeted in creating jobs in a municipal area. This funding is allocated for each affected municipality through the department of public works. Reporting of jobs created is expected on a monthly basis from all Municipalities benefiting from this particular grant. BCRM has received this funding and has managed to create jobs in all areas of its jurisdiction.

The BCRM has managed to create 133 job opportunities as per the allocated funding for this financial year. The projects were intended to be labour intensive and there were no skills transferred as per the identified and implemented projects.

COMPONENT D: COMMUNITY & SOCIAL SERVICES

3.9 LIBRARIES; ARCHIEVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES; OTHER (THEATRES, ZOOS, ETC)

INTRODUCTION TO LIBRARIES; ARCHIEVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES

Blue Crane Route Municipal libraries public library service at 6 circulating libraries across the Municipal area. Anyone may use these libraries, but only members may loan library material and use the internet.

The Library Service aims to provide information resources in various formats to the entire BCRM population, to foster a life-long reading culture. Such resources include information to develop skills and interests; educational material to both the formal and informal education system; recreational material for leisure; and cultural material adding to an understanding of other cultures.

1. Providing updated information to scholars and community.

All the libraries have computers for the public to use and 5 libraries have internet as well. All libraries have Wi-Fi. Measures are taken to improve performance by means of librarians assisting public and scholars in using the internet and other computer programmes. Colour printers and competitive prices for printing help to give good service.

2. Outreaches to adults and children.

All the libraries provide outreaches to pre-scholars weekly and 1 library provide outreach to the local Old Age Home every two weeks.

Measures taken to improve performance: some librarians read out loud to the illiterate at the Old Age Home and pre-school scholars. Outreach programmes are offered to the elderly in the form of handcrafts.

3.Educational programmes for pre-scholars and scholars

Educational programmes are held for pre-scholars every week supplied by all libraries.

Measures taken to improve performance: Story hour programmes equips the children for school readiness.

Holiday programmes are provided to keep the children actively occupied and out of the street.

These programmes ensure that every interested member of the community is reached and supplied with relevant information.

Support is given to the poverty stricken community by providing computers and books to improve their standard of living.

4.Construction of sport facilities

Municipality, under the MIG grant, commenced with planning and procurement process for construction of sport field each in Cookhouse and Somerset East. Construction commenced in May 2016. The scope of works for both projects was reduced to fit into the available budget. The playing code crated for under the projects was only soccer with other codes to be considered in the phases of the project.

SERVICE STATISTICS FOR LIBRARIES; ARCHIVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES; OTHER (THEATRES, ZOOS, ETC)

6 Libraries placed in every community for the use of all the members.

6 Qualified librarians and 3 qualified teachers are in charge of the libraries

2 Assistant librarians assist the librarians in their work.

Paid-up Members consist of 1200 Adults and 2500 children

Every library have at least 15000 books

Circulation is 116386 books yearly

3.10 CEMETORIES AND CREMATORIUMS

INTRODUCTION TO CEMETORIES & CREMATORIUMS

Blue Crane Route Municipality residents are still concentrating on only one method of burial which is digging of graves. Other methods of burial have not been fully explored especially amongst the black communities. With the increased number of funerals taking place weekly, the cemeteries are reaching its full capacity. It will be important for the communities to consider other methods of burial to ensure that cemeteries do not fill quickly.

COMMENT ON THE PERFORMANCE OF CEMETORIES & CREMATORIALS OVERALL:

BCRM has nine cemeteries in total. Only six of the nine cemeteries are officially operating. These are all three in Pearston, one in Cookhouse and two in Somerset East. The other three are full. The one cemetery in Cookhouse is about to reach its full capacity and that means a new site has been identified soon to undergo all environmental processes to be authorised as a cemetery.

In Somerset East, a new site has already been identified in Aeroville to establish a new cemetery. All geotechnical studies, environmental studies and ground water studies were done and the site was recommended for a cemetery. The municipality is only received the Record of Decision (ROD) from the Department of Environmental Affairs in November 2014 and was extended in May 2016 for a further eighteen (18) months.

COMPONENT E: HEALTH

3.11 HEALTH INSPECTION; FOOD AND ABBATOIR LICENSING AND INSPECTION; ETC

COMMENT ON THE PERFORMANCE OF HEALTH INSPECTIONS, Etc OVERALL:

The Environmental Health Practitioners (EHPs) are responsible for Health inspections as part of their scope of practice. The scope of work includes;

- Water quality monitoring
- Food control
- Health surveillance of premises
- Surveillance and prevention of communicable diseases
- Waste management

The EHP's perform their functions within the BCRM area of jurisdiction reporting to council while at the same time reports are submitted to the district. The function is funded by the district through the SLA. The funding allocation by the district is based on a national formula that says one EHP per 15000 population.

Water quality monitoring is done monthly in terms of SANS 241 and all deviations are attended to and reported to the Technical Services for further intervention.

Food control is done through health inspections on food handling premises in terms of Food, Cosmetic and Disinfectant Act Regulations (ie R962). Those food handling premises that are not compliant with the Regulations are given notices to rectify the conditions with a specified timeframe. Health surveillance of premises is also conducted in the same manner.

Waste management is a function of the municipality and the EHP's ensure compliance with the Waste Act and also to prevent occurrence of diseases that could be as a result of waste not being properly

managed. The municipality has teams that do the actual collection, transportation and disposal of waste. The two units work together to ensure waste is managed in an acceptable manner.

COMPONENT F: SECURITY AND SAFETY

INTRODUCTION TO SECURITY & SAFETY

The vision of the security and safety is to protect and to serve the Community of BCRM. To deliver quality services through the 8 pillars of Batho Pele Principles. Render a services where the people we serve are put first and where officials go beyond the call of duty.

3.12 TRAFFIC SERVICES

Traffic Services is currently providing the following services;

1. Registering Authority (Motor Vehicle Registration and Licensing, including Motor Vehicle Testing for Roadworthiness. – The VTS are rendering a free Scholar Transport Roadworthy Test prior to the commencement of a new school Term. The E-Natis Clerks are fully trained.
2. Driver License Testing Centre (Learner License Venue and Drivers' License Barn, manned by Qualified Examiners. – The DLTC services have a complement of 5 Examiners which is contributing positive in our quest for Services Delivery. The DLTC is not only serving the BCRM Community however the surrounding communities as well.

Road Traffic Safety Programs for all within BCRM area, starting at school level up to adulthood, presenting different programs as per the different levels. – The Traffic Services have extended the services to all schools in the form of scholar patrol where needed and School leavers to all Senior schools within the BCRM area, to ensure that we create better and safe road users. Law Enforcement Section strives to take the town back and do away with all lawlessness

3.13 FIRE

INTRODUCTION TO FIRE SERVICES

The year 2015/2016 generally had a significant increase in incidents mainly informal dwelling and formal dwelling fires and vegetation fires. We also continued with our Community Awareness and education on-going programmes at hospitals, retirement villages schools, clinics, etc as well as meetings with the service provider Aurecon regarding ward based Risk Assessments conducted during the month of June 2016, which will inform our disaster management plan.

1. CRITICAL ASPECTS NEEDING ATTENTION

- On-going use of Fire Tender as water tanker for drought relief is posing very high risk with regards to serious delays in response times
- Also the absence of a control room and control room staff contributes to a further delay in response time of which can result in serious repercussions for council. Also nonexistence of telephone lines and internet access at fire station.
- During the month of May 2016 approximately 6 light aircrafts including an 18 seater, other than the 3 aircrafts of the flying school Progress landed at Aeroville airfield please note with the absence of a Rapid intervention foam vehicle and adequate foam supplies any eventuality of a plane crash can result in some major disaster. We as the fire service are not adequately equipped.

1.1 INCIDENTS

Quarter/dates	TYPE	NO	FATALITIES	DESCRIPTION
Q1 July-September 2015	Informal dwelling	2		2 Dwellings and 1 building burnt during this quarter 2 x rubbish fires, 16 vegetation fires

Totals	12	2521	

COMPONENT G: CORPORATE POLICY OFFICES AND OTHER SERVICES

3.14 HUMAN RESOURCE SERVICES

INTRODUCTION TO HUMAN RESOURCE SERVICES

The Human Resources section provides the following functions:

- **Human Resources Provisioning comprise of;**
 - Human Resources Planning
 - Recruitment and Selection,
 - Staff Placement,
 - Induction and career pathing.
 - Overall HR staff Management/Supervision
 - Outlining the relevant policy/legislation to council and municipality
 - Interpret and implements labour legislation for the institution
 - Advises Directorates on procedures to follow in terms of correctional action.
 - Co-ordinates the job evaluation process of the institution.
 - JD Development, Maintains and updates Organizational Development
- **Human resources development comprises of:**
 - Implement Organizational, Provincial and National strategies
 - Co-ordinate Councillors, Management and Staff development programs
 - Skills development
 - Employment equity
 - Provide a career management service
 - Administer state sponsored studies/bursaries
 - Implement Learnership and Internship programs
- **Labour Relations**
Responsible for the following: -
 - Develop organizational labour relations strategy and policy
 - Provide a labour relations support to line function, including a support of their responsibility to the municipality
 - Provide advice and guidance to staff in respect of labour issue
 - Manage disputes and grievance resolution mechanisms
 - Administer all discipline processes (including investigations)
 - Facilitate departmental collective bargaining
 - Provide a translation service of all human resource activities

- **Functionality of the Local Labour Forum**

Good labour relations in municipalities is a legislative imperative that must be nurtured and sustained at all costs as failure to do so may have a direct impact on the levels and quality of service delivery. The local labour forum is well functioning in the municipality as all scheduled meetings were convened. Two capabilities session were organized with SALGBC to capacitate members on the functionality of the LLF. This has significantly improved relations and the nature of items that are brought to LLF for deliberation.

- ⇒ **Review of the organogram and Filling of critical and vacant posts**

All Section 56 and 57 position together with critical vacancies has been filled. Additional to senior management positions the following positions has since been filled; Head Electrician, PMU Manager, Occupational Health and Safety Officer, Manager: Supply Chain & Asset Management, Chief Traffic Officer, Chief Fire Officer and Accountant: Asset, Fleet & Liability Management. The filling of the outstanding vacancies will be done as soon the prioritization process, costing and budgeting exercise has been completed.

The municipality was assisted by CoGTA-EC in reviewing its current organisational structure and the organogram will be adopted in the beginning of the next financial year.

- ⇒ **Adherence to Code of Conduct**

The municipality is strictly adhering to code of conduct for Councillors and officials. All Councillors are required to sign code of conduct and have all signed codes of conduct for this current financial year.

The municipality developed an implementation plan for all municipal employees to sign code of conduct in the following manner and the plan was fully complied with;

Quarter 1:	Corporate Service, Finance and Municipal Manager's Office.
Quarter 2:	Community Services
Quarter 3:	Technical Services

- ⇒ **Formulation of job descriptions**

The recent assessment conducted by the municipality has proven that the majority of employees do not have job descriptions and this has been like this since the amalgamation of municipalities. This situation has resulted to the Auditor General raising a query on this matter. The council has since approved a process of rectifying the situation by appointing a service provider who undertook to develop and review job descriptions for all job categories in the municipality before the end of the current financial year. The municipality had since appointed Ayabulela Consulting and Ukhozi Consulting who have completed the project and submitted a close out report on the 2nd June 2016.

- ⇒ **Implementation of job evaluation**

The municipality is participating in the SALGA initiated process of implementing job evaluation system. The Sarah Baartman District Municipality is responsible for establishing a Job Evaluation Unit which will coordinate the implementation of the system for all municipalities

falling under the district. BCRM is participating in all the activities and has complied with all the requirements.

⇒ Human Resource Plan (HR Plan)

CoGTA-EC assisted the municipality in the formulation of the human resource plan and was adopted on the 30th June 2015. CoGTA-EC also assisted with the formulation of an implementation plan which has since been implemented. The process was widely consultative and involved all relevant stakeholders including labor as they are a critical stakeholder in this regard.

The document outlines how the municipality will achieve the objective of the IDP through optimal utilization of human resource. Integrating the key following enabling instruments;

- Job description formulation and reviewal
- Job Evaluation process
- Institutional policy development and reviewal
- Reviewal of the Organisational Structure
- Staff training through Workplace Skills Plan
- Institutionalisation of Occupational Health and Safety
- Employee Wellness Program, and
- Employee Equity Plan

BLUE CRANE ROUTE MUNICIPALITY

LIST OF EMPLOYEES ON A CASUAL AND FIXED TERM CONTRACT EMPLOYMENT OF CASUAL EMPLOYEES FROM JANUARY TO JUNE 2016

NUMBER	Date	POSITIONS	DEPARTMENT

LIST OF EMPLOYEES ON A FIXED TERM CONTRACT

POSITION	INCUMBENT	TIMEFRAME
Municipal Manager	Mr. Thabiso Klaas	Contract ends August 2017
Director Community Services	Mr. Sizwe Mvunelwa	Contract ends August 2017
Director Corporate Services	Mr. Fezekile Cotani	Contract ends August 2017
Director Financial Services (CFO)	Mr. Gerard Goliath	Contract ends August 2017
Director Technical Services	Ms. Zukiswa Ntile	Contract ends August 2017

⇒ Employment of Employees on a casual and fixed term contract

The employment of casual has been a major problem area as community members are always suspicious of any process that does not favor them. The municipality has commissioned the development of a policy to regulate the employment of casual which will lead to the development of jobseeker's database. The database will ensure that opportunities are given to all deserving residents on a fair and equitable manner. The policy will take effect from the beginning of the next financial year.

⇒ Skills Development Programs

The Skill Development Act requires that all employers, including municipalities, must develop a Workplace Skills Plan (WSP). The WSP is developed indicating the skills gaps, analysis and attributes identified in a particular year. This is also in line with Objective 2 of the National

Skills Development Strategy, which advocates for “Promoting and accelerating quality training for all in the workplace”. The WSP outlines the training capacity building programs to address the gaps and build capacity. The program consists of a skill program which is occupational based and the learnerships which are made up of structured learning component. Every year the Blue Crane Route Municipality develops a WSP indicating the skills gaps, training and capacity building programs. This is to ensure that staff members involved in both skills and learnership programs to build their capacity and enable them to respond to the needs of the community with confidence. In order to achieve this objective, the municipality conducts skills audit where all employee’s complete skills audit questionnaires which gets translated into a skills audit profile of the municipality.

⇒ **Training and Development**

The municipality is developing Human Resources Management Policies that will ensure that all training and development initiatives for Administrative Staff and Political office bearers must be properly planned, programmed and administered and their results reviewed in order to determine-

- (a) How training methodologies and programme content can be improved;
- (b) To what extent a particular programme has supplied the needs of the individual learners who completed it and the Municipality;
- (c) How maximum benefit can be obtained from resources devoted to training and development;
- (d) How procurement and development of training programmes can be improved; and
- (e) What impact completion of a programme had on the performance of a learner.

All Senior Managers, Finance and Supply Chain Management Officials possess necessary competencies as prescribed in the relevant legislation. The municipality will ensure that all senior managers are assessed at year end in order to correct the anomaly which is not in practice at the moment.

⇒ **Employment Equity**

The Employment Equity Act prescribes that every designated employer must formulate an Employment Equity Plan. This calls for the municipality to develop a policy defining its employment equity practices. The municipality has an existing employment equity policy which is due for reviewal soon as it has been adopted in 2012. The purpose of the employment equity is to achieve equity in the workplace by promoting equal opportunity and fair treatment in employment through elimination of unfair discrimination. Also to implement affirmative action measures to redress the disadvantages employment experienced by designated groups in order to ensure their equitable representation in all occupational categories in the workplace. The municipality is in the process of developing an employment equity plan which is currently in draft form and is scheduled for implementation by the end of the current financial year. The municipality has been reporting regularly to the department of labor despite having a draft employment equity plan.

⇒ **Dealing with critical and scarce skills**

The municipality is developing a policy to deal with scarce skills and to cover the following fundamental principles:

- To determine the strategic and operational needs of the organization
- Strategies to attract and retain critical expertise in certain fields
- Adhering to the requirements of Employment Equity
- To apply skills transfer

The policy will be adopted by the end of the current financial year and implemented in the next financial year.

⇒ **Career Opportunities, Succession Planning and Rapid Progression**

The Municipality has a sound staffing strategy and that it takes steps to retain staff in general and in particular those employees that-

- (a) Show potential;
- (b) Competently occupy key positions;
- (c) Possess scarce or specialised skills and knowledge; or
- (d) Are Black, female or disabled.

Objectives

The objectives of this policy are-

- (a) To create an ongoing supply of well trained, broadly experienced and motivated employees who are ready to step into key positions as may be needed from time to time.
- (b) To ensure alignment between the career goals of individual employees and the goals of the Municipality.
- (c) To establish special programmes to expose employees mentioned in paragraph 17.1 to a variety of job experiences and familiarise them with the Municipality's processes and systems.
- (d) To align the future staffing needs of the Municipality with the current availability of appropriate resources within the Municipality.
- (e) To define employee career paths, which will help the Municipality to train and retain a pool of suitably qualified employees.

This and other policies will be implemented as soon as council adopts Human Resources Management Policies scheduled for tabling to the council meeting at the end of May 2016.

⇒ **Attraction and Retention Policy**

The municipality is in the process of developing Human Resources Management Policies which amongst others include the Attraction and Retention Policy.

The purpose of this policy and strategy is to provide guidelines that will assist the Municipality in attracting and retaining personnel with competencies that are necessary for the realization of municipal goals in line with its vision for long term development and transformation as envisaged in the municipality's Integrated Development Plan.

The policy will be implemented as soon as it is adopted by Council scheduled for the end of May 2016.

⇒ **Performance management**

The municipality has adopted a performance management system however it is only senior management and those officials directly reporting to senior managers who are performance managed. The municipality will cascade the system to the rest of the institution at the beginning of the next financial year. Consultations are undertaken with employee representative on the modalities of implementing the system.

⇒ **Administrative matters**

The Human Resources section is currently conducting an audit of personnel files ensuring that all necessary documents are in place and in order. Another audit is the leave management system in order to introduce new measures that will ensure a credible leave management system. The municipality is developing a new induction program in order to improve on the current system which is in operation and does not give much better value.

⇒ **Occupational Health and Safety**

The municipality does not have an Occupational Health and Safety Officer as per requirements of the labour legislation. This has led to non-compliance with the department of labour. Significant steps were undertaken which led to the appointment of a consultant who assisted the municipality to develop a framework for the institutionalization of OHS in the organization. OHS Officer will be appointed in the fourth quarter of the current financial year.

⇒ **Employee Wellness Programs**

The Blue Crane Route Municipality has a commitment to ensure a health, safety and welfare of all employees at work. The municipality adopted the Employee Wellness Program in 2012 with the intention of providing internal and external professional, confidential assistance to employees. The municipality has developed an internal newsletter which will help to provide educational support on various matters affecting employees both in the workplace and at home. A range of sustainable employee wellness programs have been developed for implementation next financial year.

⇒ Compliance Requirements

The municipality has developed a legislative compliance checklist in order to ensure that all relevant legislations are complied with. The compliance checklist involves the development of Standard Operating Procedures for various functions of Human Resources Section including amongst others the Recruitment and Selection, leave management, Payroll administration to mention just a few.

3.15 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

Information and Communication Technology is one of the key assets of our Municipality. ICT the people, processes, infrastructure and information is embedded across the Municipality creating an enterprise wide community of owners and stakeholders. As a major investment ICT is expected to deliver value and has been found to be influenced by a stream of diverse tactical initiatives.

The primary purpose of the ICT is to provide Information and Communication Technology services to the Municipality so that the community as our main customers receive the best possible services from the municipality.

The major role of ICT section is to Implement IT Best Practices to promote good IT governance in our municipality. To Provide ICT Solutions That Respond to Customer Needs, Develop and Sustain ICT Infrastructure That Will Facilitate Effective Service Delivery and to effectively and efficiently provide ICT services which facilitate the achievement of Municipality's strategic goals.

The IT Steering Committee (ITSC) oversees the information technology investment priorities for Blue Crane Route Municipality. The IT Steering committee's assists the Council in overseeing IT-Related activities. Members of the ITSC are appointed by Municipal manager and are accountable to the Council. To ensure functionality of the IT steering committee this committee meets quarterly.

In 2015/16 financial year the IT steering committee focused on ICT Governance by ensuring reliable efficient and effective ICT function. The two main priorities were:

- 1) Functioning of the Steering committee
- 2) Implementation of ICT policies.

1) Operational Steering Committee

To ensure that our Steering committee is functional quarterly meeting were scheduled for the committee and all 4 meetings did take place as required and major IT decisions were taken.

2) ICT Policies

In addressing ICT Governance and strengthening the security of our systems seven (7) policies were adopted and approved by council.

These policies are:

- 1) Internet and email policy
- 2) IT Network security policy
- 3) IT Data and Systems security policy
- 4) Data Recovery policy and Disaster Recovery Plan
- 5) Social media Policy
- 6) IT Program Change Management Policy
- 7) BCRM Corporate Governance of Information and Technology policy

One of the major capital projects of ICT in 2015/16 financial year was the construction of the first phase of the data centre as part of upgrading the IT infrastructure to a Tier 11 standard and to improve performance. This project has amounted to **R382,000.00**.

The upgrades entail the following work

- 2 - hour fire rated door
- Raised floor
- Redundant air conditioning
- Server cabinet
- Suspended Ceiling

COMPONENT H: ORGANISATIONAL PERFORMANCE SCORECARD

This component includes the Annual Performance Scorecard Report for the 2015/2016 financial year.

The above report is attached as an Appendix directly after Appendix L.

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

COMPONENT A: MANAGING THE MUNICIPAL WORKFORCE

4.1 INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

The Municipality has undertaken various programs to ensure compliance with legislative provisions. The following programs were implemented by the organisation;

- **Human Resource Plan** – the municipality was assisted by CoGTA to develop the plan and was consulted broadly with various stakeholders including labour.
- **Human Resource Policies** – the municipality has adopted HR Policies at the end of May 2016 and an implementation plan will be adopted by management in the first quarter of the next financial year.
- **Job Description formulation and review** – the municipality had not undertaken the project after the amalgamation of town based municipalities. A service provider was appointed to conduct this process and was successfully completed at the beginning of June 2016.
- **Job Evaluation process** – the municipality is participating in the job evaluation process whose unit is centralised in the Sarah Baartman District Municipality. The process will commence soon now that the job description formulation review process is completed.
- **Employment Equity Plan and Reporting** – The municipality developed and adopted Employment Equity Plan which was adopted at the beginning of this current financial year. The municipality has been reporting to the Department of Labour despite the fact that there was no plan in place. The plan will end in 2017.

CHAPTER 5 – FINANCIAL PERFORMANCE

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of three components:

- **Component A:** Statement of Financial Performance
- **Component B:** Spending against Capital Budget
- **Component C:** Other Financial Matters

The Municipality sought to control inflationary pressures during the year by implementing budgetary control measures.

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

A summary of the Financial Performance is contained on the following page. The municipality has budgeted for & realized a deficit financial outcome. This results in the cash surpluses being depleted & hence a Revenue Enhancement Strategy is being implemented with the objective of improving our internal revenue sources.

Stringent cash flow monitoring must be implemented in order to prevent the municipality being exposed to financial distress.

5.1 STATEMENT OF FINANCIAL PERFORMANCE

T 5.2.1

5.3 ASSET MANAGEMENT

INTRODUCTION TO ASSET MANAGEMENT

The asset base of the Municipality is integral to the Municipalities ability to provide services to the community in terms of its constitutional Mandate such as the provision of water, electricity, sanitation and maintenance of roads. It is the duty of the Municipality in terms of its asset management policy to ensure that assets are safeguarded and maintained so that they are operating in the manner intended for its use, and are not unproductive or idle.

Assets that are unproductive, idle or not operating in the manner intended or to sufficient capacity are assessed on an ongoing basis for impairment, and written off and replaced if where applicable.

TREATMENT OF THE THREE LARGEST ASSETS ACQUIRED YEAR 2015/2016				
Asset 1				
Name	Municipality Fleet Replacement - Purchase of Vehicles and Bakkies			
Description	Purchase of new cars, bakkies , trucks & plant			
Asset Type	Vehicles and Plant			
Key Staff Involved	All Directors; Senior Mechanic & Accountant: Asset, Fleet & Liability Management			
Staff Responsibilities	To supervise the construction, quality control and ensure effective maintenance			
	2012/2013	2013/2014	2014/2015	2015/2016
Asset Value	278 377	510 180	4 811 739	2 989 338
Capital Implications	Total on Cost on Capital in year 2013, 2014, 2015 & 2016 combined and equals R8,589,634 excl. VAT			
Future Purpose of Asset	Improved Service Delivery with better response times to attend to problems.			
Describe Key Issues	Require effective monitoring of fleet to reduce vehicle abuse & prolong the useful life			
Policies in Place to Manage Asset	Asset Management Policy and Vehicle Usage policy			
Asset 2				
Name	Community Water Supply Project – Pearston			
Description	To install new Boreholes to increase the water supply capacity in Pearston			
Asset Type	Infrastructure & Mechanical - Drilling & Equipping of New Boreholes			
Key Staff Involved	Director: Technical Services, PMU Manager, Pearston Water Foreman			
Staff Responsibilities	To supervise the construction, quality control and ensure effective installation and usage			
	2012/2013	2013/2014	2014/2015	2015/2016
Asset Value	-	-	-	2 413 098
Capital Implications	Total Cost on Capital in year 2016 equals R2,413,098 excl. VAT			
Future Purpose of Asset	New Boreholes to increase the water supply capacity in Pearston			
Describe Key Issues	Technical expertise to manage and maintain the Boreholes and related infrastructure			
Policies in Place to Manage Asset	Asset Management Policy			
Asset 3				
Name	Somerset East Waste Water Treatment Works (SE WWTW)			
Description	Construction of an upgraded Waste Water Treatment Works			
Asset Type	Construction of a Waste Water Treatment Works			
Key Staff Involved	Director: Technical Services, PMU Manager, Waste Water middle management			
Staff Responsibilities	To supervise the construction, quality control and ensure effective maintenance			
	2012/2013	2013/2014	2014/2015	2015/2016
Asset Value	1 816 271	4 142 973	16 087 060	1 418 935
Capital Implications	Total on Cost on Capital in year 2013, 2014, 2015 & 2016 combined and equals R23,465,239 excl. VAT			
Future Purpose of Asset	Upgraded Waste Water Treatment Works at Somerset East

	Original Budget	Adjustment Budget	Actual	Budget variance
Repairs and Maintenance Expenditure	4 220	4 220	3 542	16%
				T5.3.4

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

The Financial ratios based on key performance indicators for the following is:

	<u>2014/2015</u>	<u>2015/2016</u>
Liquidity	1.14	1.47
Cost Coverage	1.5	0.9
Total Outstanding Service Debtors	18%	19.6%
Total Charges to Operating Exp	2.1%	0.6%
Employee Cost	31.3%	32.2%
Repairs and Maintenance	1.1%	2%
Capital Expenditure	84%	64%
Operating Expenditure	99%	102%

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Capital expenditure relates mainly to construction projects that will have value lasting over many years. Capital expenditure is funded from grants, borrowings and operating expenditures and surpluses. Component B deals with capital spending indicating where the funding comes from and whether Municipalities are able to spend the available funding as planned.

5.5 CAPITAL EXPENDITURE

The graph below depicts the ratio between Capital and Operating budgets as percentages of the total expenditure budget. The municipality is severely constrained with its Capital Budget as there are no cash surpluses to fund Capital Expenditure. The municipality is therefore largely dependent on Grant funding.

5.6 SOURCES OF FINANCE

Capital Expenditure - Funding Sources: 2014/2015 to 2015/2016						
R' 000						
Details	2014/2015	2015/2016				
	Actual	Original Budget (OB)	Adjustment Budget	Actual	Adjustment to OB Variance (%)	Actual to OB Variance (%)

5.7 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS - OVERVIEW

INTRODUCTION TO BASIC SERVICE AND INFRASTRUCTURE BACKLOGS

The Blue Crane Route Municipality depends for the most part on Grant Allocation to eradicate its backlog effectively. However, the municipality does set out an annual budget to deal with backlogs. The department of Human Settlements has a programme of eradicating bucket system in Municipalities around the country. The BCRM has formed part of that programme aim at eradicating bucket system in the formal settlement. The Department has however indicated that this is a first phase and the next phase will look into eradicating bucket system in the informal settlement and the phase after that will look into eradicating septic tanks. The aim of the whole exercise is to provide/ connect communities to water borne system.

Service Backlogs as at 30 June 2016				
	Households (HHs)			
	*Service level above minimum standard		**Service level below minimum standard	
	No. HHs	% HHs	No. HHs	% HHs
Water	8579	96	350	4
Sanitation	8579	96	350	4
Electricity	8579	96	350	4
Waste management	8929	100	0	0
Housing		%		%
% HHs are the service above/below minimum standard as a proportion of total HHs. 'Housing' refers to * formal and ** informal settlements.

5.9 BORROWING AND INVESTMENTS

INTRODUCTION TO BORROWING AND INVESTMENTS

The municipality has considerably increased the size of its debt book over the past 3 years mainly due to the replacement of fleet and the R13 million loan required to accelerate MIG expenditure. The MIG project loan is due to be settled in November 2016 and the debt book will drastically reduce accordingly to around R5 million at 30 June 2017 compared to R18 million at 30 June 2016. The municipality has resolved that no further loans be entered into over the short to medium term.

PUBLIC PRIVATE PARTNERSHIPS

The Blue Crane Route Municipality is not involved in any Public Private Partnerships.

COMPONENT D: OTHER FINANCIAL MATTERS

5.10 SUPPLY CHAIN MANAGEMENT

The Blue Crane Route Municipality has a Supply Chain Management Unit as reflected in the Financial Services Organogram.

The Supply Chain Management (SCM) is up and running within the BCRM and strict control measures are in place according to the MFMA, SCM Regulations, MFMA Circulars and the BCRM SCM Policy. There are ten (10) posts within the Supply Chain Management Unit; they have been filled except for the Accountant: Supply Chain Management.

The following three (3) Bid Committees have been established and has the relevant meetings when tenders/bids, etc. are placed as per MFMA and Supply Chain Regulations:

- 1) Specification Bid Committee
- 2) Evaluation Bid Committee
- 3) Adjudication Bid Committee

The Supply Chain Management Policy that was adopted and implemented by the Sarah Baartman District Municipality (CDM) has been adopted by the Blue Crane Route Municipality (BCRM) after the relevant changes was made to comply with the Blue Crane Route Municipality's requirements, keeping the SCM regulations in mind. The policy has been reviewed in the 2015/16 financial year and accordingly approved on 30 May 2016. The municipality has also developed the SCM Policy on

Infrastructure Procurement and Delivery Management and Contract Management which were approved on 30 June 2016.

5.11 GRAP COMPLIANCE

GRAP is the acronym for **G**enerally **R**ecognized **A**ccounting **P**ractice and it provides the rules by which municipalities are required to maintain their financial accounts. Successful GRAP compliance will ensure that municipal accounts are comparable and more informative for the municipality. It will also ensure that the municipality is more accountable to its citizens and other stakeholders. Information on GRAP compliance is needed to enable National Treasury to assess the pace of progress and consider the implications.

6.2 AUDIT COMMITTEE REPORT

(The report is attached)

COMMENTS ON MFMA SECTION 71 RESPONSIBILITIES

Section 71 of the MFMA requires municipalities to return a series of financial performance data to the National Treasury at specified intervals throughout the year. The Chief Financial Officer states that these data sets have been returned according to the reporting requirements.

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

INTRODUCTION

The Constitution S188 (1) (b) states that the functions of the Auditor-General includes the auditing and reporting on the accounts, financial statements and financial management of all municipalities. MSA section 45 states that the results of performance measurement must be audited annually by the Auditor-General.

COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS- 2014/2015

6.1 AUDITOR-GENERAL REPORT – 2015/2016

AUDITOR-GENERAL REPORT ON THE FINANCIAL STATEMENTS: 2015/2016

(Attached as Annexure)

COMMENTS ON AUDITOR-GENERAL'S OPINION – 2015/2016

The municipality accepted the Auditor General's (AG) report on the presentation of the municipality's financial information as at 30 June 2016. The areas of disagreement were noted in the Management Report, but the findings remained due to insufficient evidence being provided to the AG.

The municipality thereafter compiled the Audit Action Plan to address the findings. The Accounting Officer is assisted by the Internal Audit unit in monitoring the implementation of the Audit Action plan and progress reports are tabled to each Audit Committee Meeting.

The municipality is committed to achieving clean administration and ultimately an unqualified audit opinion with no material findings.

CHAPTER 7 – COOPERATIVE GOVERNANCE AND TRADITIONAL AFFAIRS: KEY PERFORMANCE INDICATORS IN THE DEVELOPMENT OF THE ANNUAL REPORT

INTRODUCTION

The provincial department together with the National Department of Cooperative Governance developed indicators that seek to assist municipalities to provide information that will assist the MEC to report on municipal performance.

COMPONENT A: KEY PERFORMANCE INDICATORS

7.1 ORGANISATIONAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT – (KPA 1)

No.	Indicator name	Total number of people (planned for) during the year under review	Achievement level during the year under review	Achievement percentage during the year	Comments on the gap
1	Vacancy rate for all approved and budgeted posts;	56	22	39%	
2	Percentage of appointment in strategic positions (Municipal Manager and Section 57 Managers)	5	5	100	
3	Percentage of Section 57 Managers including Municipal Managers who attended at least 1 skill development training course within	5	5	100	

No.	Indicator name	Total number of people (planned for) during the year under review	Achievement level during the year under review	Achievement percentage during the year	Comments on the gap
	the FY				
4	Percentage of Managers in Technical Services with a professional qualification	3	1	33	
5	Level of PMS effectiveness in the DM – (DM to report)	PMS not yet cascaded to lower levels			
6	Level of effectiveness of PMS in the LM – (LM to report)				
7.	Adoption and implementation of HRD plan including WSP	The Human Resource Plan which includes WSP was adopted by Council in 2014 and is up for review before the end of the current financial year.			
8.	Percentage of staff that have undergone a skills audit (including competency profiles) within the current 5-year term	316	285	90%	The 10% gap is being addressed
9	Percentage of councillors who attended a skill development training within the current 5-year term	11	6	55	They are relatively young Councillors who are interested in their development,
10	Percentage of staff complement with	0	0	0	Will be consciously targeted in future to

No.	Indicator name	Total number of people (planned for) during the year under review	Achievement level during the year under review	Achievement percentage during the year	Comments on the gap
	disability				address employment equity targets
11	Percentage of female employees				Partially addressed underrepresentation of female as per Employment Equity Plan
12	Percentage of employees that are aged 35 or younger				This is the percentage of female employees in the organization. Currently employment plans are not aged based but in terms of employment equity targets

7.2 BASIC SERVICE DELIVERY PERFORMANCE HIGHLIGHTS – (KPA 2)

No.	Indicator name	Total number of household /customer expected to benefit	Estimated backlogs (actual numbers)	Target set for the FY under review (actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year	Comments
1	Percentage of households with access to potable water	95%	350	0	0	0	
2	Percentage of indigent households with access to free basic potable water						
3	Percentage of clinics with access to potable water	100%	0	0	0	0	
4	Percentage of schools with access to	17 = 81%	4	0	0	0	

	potable water						
5	Percentage of households in formal settlements using buckets	0.05%	5	0	0	0	

Annual performance as per key performance indicators in Electricity services

No.	Indicator name	Total number of household /customer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review (actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year	Comments
1	Percentage of households with access to electricity services						
2	Percentage of indigent households with access to basic electricity services						
3	Percentage of indigent						

	households with access to free alternative energy sources						
--	---	--	--	--	--	--	--

Annual performance as per key performance indicators in sanitation service

No.	Indicator name	Total number of household/customer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year	Comments
1	Percentage of households with access to sanitation services	95%	350	0	0	0	
2	Percentage of indigent households with access to free basic sanitation services						
3	Percentage of clinics with access to sanitation	6 = 100%	0	0	0	0	

No.	Indicator name	Total number of household/customer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year	Comments
	services						
4	Percentage of schools with access to sanitation services	17 = 81%	4	0	0	0	

Annual performance as per key performance indicators in road maintenance services

No.	Indicator name	Total number of household /customer expected to benefit (8592)	Estimated backlogs (actual numbers)	Target set for the f. year under review (Actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year	Comments
1	Percentage of households without access to gravel or graded roads	8592	0	0	0	0	
2	Percentage	8592	50 km	0	0	0	

	of road infrastructure requiring upgrade						
3	Percentage of planned new road infrastructure actually constructed	8592	50 km	0	0	0	
4	Percentage of capital budget reserved for road upgrading and maintenance effectively used.	0	50 km	0	0	0	

Annual performance as per key performance indicators in waste management services

No.	Indicator name	Total number of household/customer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year
1	Percentage of households with access to refuse removal services					
2	Existence of waste					

	management plan	
--	-----------------	--

Annual performance as per key performance indicators in housing and town planning services

No.	Indicator name	Total number of household/customer expected to benefit	Estimated backlogs (Actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year
1	Percentage of households living in informal settlements	350	350	0	0	0
2	Percentage of informal settlements that have been provided with basic services	100%	350	0	0	0
4	Existence of an effective indigent policy	The municipality adopted an indigent support policy which embodies an indigent support programme not only providing procedures and guidelines for the subsidisation of service charges to indigent households in its area of jurisdiction, but also to increase the quality of life of the beneficiaries by assisting them to exit from indigence.				
5	Existence of an approved SDF	The Municipal has an adopted Spatial Development Framework in 2012 and was reviewed in 2014. The framework is due for renewal as soon as the funding is secured				
6	Existence of Land Use Management System (LUMS)	The Land Use Management Schemes has been in existence for a very long time and require reviewal as soon as funding is secured.				

7.3 MUNICIPAL ECONOMIC DEVELOPMENT FRAMEWORK – (KPA 3)

Annual performance as per key performance indicators in LED

	Indicator name	Target set for the year	Achievement level during the year (absolute figure)	Achievement percentage during the year
1	Existence of LED unit			
2	Percentage of LED Budget spent on LED related activities.			
3	Existence of LED strategy	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		
4	Number of LED stakeholder forum meetings held			
5	Plans to stimulate second economy			
6	Percentage of SMME that have benefited from a SMME support program			
7	Number of job opportunities created through EPWP			
8	Number of job opportunities created through PPP			

7.4: MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT – (KPA 4)

No.	Indicator name	Target set for the year R(000)	Achievement level during the year R(000)	Achievement percentage during the year
1	Percentage expenditure of capital budget	20 011	12 331	62%
2	Salary budget as a percentage of the total operational budget	28%	31%	90%
3	Trade creditors as a percentage of total actual revenue	10%	27%	270%
4	Total municipal own revenue as a percentage of the total actual budget	70%	73%	104%
5	Rate of municipal consumer debt reduction	10%	(10%)	(20%)
6	Percentage of MIG budget appropriately spent	100%	100%	100%
7	Percentage of MSIG budget appropriately spent	100%	100%	100%
8	AG Audit opinion	Unqualified Audit Report	Unqualified Audit Report	100%
9	Functionality of the Audit Committee	All vacant posts within Internal	N/A	100%

		Audit Unit filled		
10	Submission of AFS after the end of financial year	Submitted on due date	Submitted on due date	100%

7.5 GOOD GOVERNANCE AND PUBLIC PARTICIPATION – (KPA 5)

No	Indicator name	Target set for the year	Achievement level during the year (absolute figure)	Achievement percentage during the year
1	% of ward committees established			
2	% of ward committees that are functional			
3	Existence of an effective system to monitor CDWs	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		
4	Existence of an IGR strategy	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		
5	Effective of IGR structural meetings	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		
6	Existence of an effective communication strategy	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		
7	Number of mayoral imbizos conducted			
8	Existence of a fraud prevention mechanism	THE INFORMATION SHOULD BE REFLECTED IN A NARRATIVE FORM		

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give “ <i>full and regular</i> ” reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe “ <i>what we do</i> ”.
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General performance indicators Key	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.

Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.
Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and

	express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	<p>One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area.</p> <p>Section 1 of the MFMA defines a "vote" as:</p> <p><i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and</i></p> <p><i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i></p>

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with South African Statements of Generally Recognised Accounting Practice (GRAP) And the Municipal Finance Management Act (MFMA) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2017 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

Although the accounting officer is primarily responsible for the financial affairs of the municipality, he is supported by the Chief Financial Officer.

The external auditors are responsible for independently reviewing and reporting on the municipality's annual financial statements. The annual financial statements have been examined by the municipality's external auditors.

The annual financial statements set out on the following pages have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2016 and were signed by him.

The accounting officer hereby certify as required by Section 124(1)(a) of the Municipal Finance Management Act (Act 56 of 2003) that the salaries, allowances and benefits of political office-bearers and councillors of the Blue Crane Route Municipality, whether financial or in kind, are within the upper limits of the framework envisaged in section 219 of the Constitution.

14 DEC 2016

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act No 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and incorporate the historical cost conventions as the basis of measurement, except where specified otherwise.

The principal accounting policies, applied in the preparation of these annual financial statements, are set out below.

These accounting policies are consistent with those applied in the preparation of the prior year financial statements, unless specified otherwise. Details on any changes in accounting policies are provided in note Changes in accounting policy.

1.1. Presentation of currency

These annual financial statements are presented in South African Rand, which is the functional currency of the entity. The figures in the annual financial statement are rounded to the nearest Rand value.

1.2. Going concern

These annual financial statements were prepared based on the expectation that the entity will continue to operate as a going concern for at least the next 12 months.

1.3. Budget information

Budget information in accordance with GRAP 1 and 24, has been provided in the Statement of comparison of budget and actual amounts.

The approved budget is prepared on an accrual basis.

The approved budget covers the fiscal period from 2015/07/01 to 2016/06/30.

1.4. Comparative figures

When the presentation or classification of items in the financial statements is amended, prior period comparative amounts are also reclassified and restated, unless such comparative reclassification and/or restatement is not required by a Standard of GRAP. The nature and reason for such reclassifications and restatements are also disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable and the prior year comparatives are

restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. The presentation and classification of items in the current year is consistent with prior years.

The nature and reasons for the reclassifications and restatements are disclosed in note 42 to the financial statements.

1.5. Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP

1.6. Significant Judgements and sources of estimation uncertainty

The use of judgement, estimates and assumptions is inherent to the process of preparing annual financial statements. These judgements, estimates and assumptions affect the amounts presented in the annual financial statements. Uncertainties about these estimates and assumptions could result in outcomes that require material adjustment to the carrying amount of the relevant asset or liability in future periods.

Judgements

In the process of applying these accounting policies, management has made the following judgements that may have a significant effect on the amounts recognised in the annual financial statements.

Estimates

Estimates are informed by historical experience, information currently available to management, assumptions, and other factors that are believed to be reasonable under the circumstances. These estimates are reviewed on a regular basis. Changes in estimates that are not due to errors are processed in the period of the review and applied prospectively.

In the process of applying the entity's accounting policies, the following estimates were made:

Inventory

The estimation of the water stock in the reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir.

Impairments of non-financial assets

In determining the value-in-use of non-financial assets, management is required to rely on the use of

estimates about the asset's ability to continue to generate cash flows (in the case of cash-generating assets). For non-cash-generating assets, estimates are made regarding the depreciated replacement cost, restoration cost, or service units of the asset, depending on the nature of the impairment and the availability of information.

Provisions

Provisions are measured as the present value of the estimated future outflows required to settle the obligation. In the process of determining the best estimate of the amounts that will be required in future to settle the provision management considers the weighted average probability of the potential outcomes of the provisions raised. This measurement entails determining what the different potential outcomes are for a provision as well as the financial impact of each of those potential outcomes.

Management then assigns a weighting factor to each of these outcomes based on the probability that the outcome will materialise in future. The factor is then applied to each of the potential outcomes and the factored outcomes are then added together to arrive at the weighted average value of the provisions. Additional disclosure of these estimates of provisions is included in note 19 - Provisions.

Pension and other post-employment benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate, future salary increase, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Effective interest rate

The municipality used the prime interest rate to discount future cash flows.

Allowance for doubtful debts

The measurement of receivables is derived after consideration of the allowance for doubtful debts. Management makes certain assumptions regarding the categorisation of debtors into groups with similar risk profiles so that the effect of any impairment on a group of receivables would not differ materially from the impairment that would have been determined had each debtor been assessed for impairment on an individual basis.

The determination of this allowance is predisposed to the utilisation of estimates, assumptions and management judgements. In determining this allowance the estimates are made about the probability of recovery of the debtors based on their past payment history and risk profile.

Provision for rehabilitation of refuse landfill sites

The entity has an obligation to rehabilitate its landfill sites in terms of its license stipulations. Provision is made for this obligation based on the size / extent of the land to be rehabilitated, the rehabilitation

cost per square meter, the monitoring cost per square meter, and the rehabilitation period. Current costs are projected using the average rate of inflation over the remaining period until rehabilitation, and then discounted to their present value using an appropriate discounting rate, representing the time value of money.

Depreciation and amortisation

Depreciation and amortisation recognised on property, plant and equipment and intangible assets are determined with reference to the useful lives and residual values of the underlying items. The useful lives and residual values of assets are based on management's estimation of the asset's current condition, expected condition at the end of the period of use, its current use, expected future use and the entity's expectations about the availability of finance to replace the asset at the end of its useful life. In evaluating the useful life and residual value management considers the impact of technology and minimum service requirements of the assets.

1.7. Property, plant and equipment

Initial recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits or service potential associated with the item will flow to the municipality and the cost of the item can be measured reliably.

Property, plant and equipment are initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the cost of dismantling and removing the asset and restoring the site on which it is operated.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Major spare parts and servicing equipment which are expected to be used for more than one period

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

are included in property, plant and equipment. In addition, spare parts and servicing equipment which can only be used in connection with an item of property, plant and equipment are accounted for as property, plant and equipment.

Subsequent measurement

Subsequent to initial recognition, property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses except for land, which is not depreciated as it is deemed to have an indefinite useful life.

Subsequent expenditure

Where the entity replaces part of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Depreciation

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value. Components that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The depreciable amount is determined after taking into account an asset's residual value.

The annual depreciation rates are based on the following estimated useful lives:

Item	Average useful life
Land (PPE)	Indefinite
Buildings	60 years
Plant	5 – 15 years
Furniture and fixtures	5 – 15 years
Motor vehicles	5 – 20 years
Office equipment	3 – 10 years
Other equipment	3 – 10 years
Infrastructure	5 – 80 years

Impairments

The entity tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.8. Investment property

Initial Recognition

Investment property includes property (land or a building, or part of a building) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations. Investment property is initially recognised when future benefits are probable and the cost or fair value can be determined reliably.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is the cost at date of completion.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property (property, plant and equipment), the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the municipality accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

The cost of day to day servicing of investment property is recognised in the Statement of Financial Performance as incurred.

Subsequent measurement

Fair Value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Derecognition

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Impairments

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date.

Where the carrying amount of an Investment Property is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

Subsequent expenditure

Where the entity replaces part of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

1.9. Intangible assets

An intangible asset is an identifiable non-monetary asset without physical substance. The entity recognises an intangible asset in its Statement of Financial Position when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and the cost or fair value of the asset can be measured reliably.

An internally generated intangible asset is subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the entity intends to complete the intangible asset, for use or sale
- it is technically feasible to complete the intangible asset
- the entity has the resources to complete the project
- It is probable that it will generate future economic benefits or service potential.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are initially recognised at cost.

An intangible asset acquired through a non-exchange transaction, the cost shall be its fair value as at the date of acquisition.

Subsequent measurement

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

The cost of an Intangible asset is amortised over the useful life where that useful life is finite. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Financial Performance in the expense category consistent with the function of the Intangible asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life assumption continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired.

For all other intangible assets amortisation is provided on a straight line basis over their useful life. Reassessing the useful life of an Intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Amortisation and Impairment

Amortisation is charged to write off the cost of intangible assets over their estimated useful lives using the straight-line method.

The annual amortisation rates are based on the following estimated average asset lives:

Computer software	5 years
-------------------	---------

Impairments

The entity tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is performed at each reporting date. Where the carrying amount of an item of an Intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Derecognition

Intangible assets are derecognised on disposal or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss is the difference between the net disposal proceeds, if any, and the carrying amount. It is recognised in surplus or deficit when the asset is derecognised.

1.10. Heritage Assets

Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated due to the uncertainty regarding their estimated useful lives.

Initial Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

Impairments

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset. Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

1.11. Financial Instruments

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument. The entity recognises financial assets using trade date accounting.

Upon initial recognition the entity classifies financial instruments or their component parts as financial liabilities, financial assets or residual interests in conformity with the substance of the contractual arrangement and to the extent that the instrument meets the relevant definitions.

Financial instruments are evaluated, based on their terms, to determine if those instruments contain both liability and residual interest components (i.e. to assess if the instruments are compound financial instruments). To the extent that an instrument is in fact a compound instrument, the components are classified separately as financial liabilities and residual interests as the case may be.

Initial measurement

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Subsequent measurement

Subsequent to initial recognition, financial assets and financial liabilities are measured at fair value, amortised cost or cost. All financial assets and financial liabilities are measured after initial recognition using the following categories:

a) Financial instruments at fair value:

- derivatives;
- combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
 - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and
 - financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

b) Financial instruments at amortised cost:

Non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

payments, excluding those instruments that the entity designates, at fair value, at initial recognition or, are held for trading.

c) Financial instruments at cost:

investments in residual interest, which do not have quoted market prices, and for which fair value cannot be determined reliably.

The entity assesses which instruments should be subsequently measured at fair value, amortised cost or cost, based on the definitions of financial instruments at fair value, financial instruments at amortised cost or cost, based on the definitions of financial instruments at fair value, financial instruments at amortised cost or financial instruments at cost as set out above.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairments

All financial assets measured at cost or amortised cost are subject to an impairment review. The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

The entity first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant and individually or collectively for financial assets that are not individually significant. If the entity determines that no objective evidence of impairment exists for an individually assessed asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly or by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The

amount of the reversal is recognised in surplus or deficit.

Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting. The entity derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:
 - derecognise the asset; and
 - recognise separately any rights and obligations created or retained in the transfer.

Financial liabilities

The entity removes a financial liability (or a part of a financial liability) from its statement of financial position when the obligation is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Policies relating to specific financial instruments

Investments at amortised cost

Investments which include fixed deposits and short-term deposits invested in registered commercial banks are categorised as financial instruments at amortised cost and are subsequently measured at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is credited to the Statement of Financial Performance.

Cash and cash equivalents

Cash and cash equivalents are measured at amortised cost.

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents comprise cash on hand and deposits held on call with banks.

Trade and other receivables

Trade and other receivables are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition and subsequently stated at amortised cost less provision for impairment. All trade and other receivables are assessed at least annually for possible impairment. Impairments of trade and other receivables are determined in accordance with the accounting policy for impairments. Impairment adjustments are made through the use of an allowance account.

Bad debts are written off in the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the reporting date are classified as current. Interest is charged on overdue accounts.

Trade and other payables

Trade payables are initially measured at fair value plus transaction costs that are directly attributable to the acquisition and are subsequently measured at amortised cost.

Other financial assets

These include loans receivable and initially measured at fair value plus transaction costs that are directly attributable to the acquisition and subsequently measured at amortised cost.

1.12. Leases

Finance leases - lessee

Initial recognition

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the entity through the lease agreement. Assets subject to finance leases are recognised in the Statement of Financial Position at the inception of the lease, as is the corresponding finance lease liability.

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Subsequent measurement

Subsequent to initial recognition the finance lease liability is carried at amortised cost, with the lease payments being set off against the capital and accrued interest. The allocation of the lease payments between the capital and interest portion of the liability is effected through the application of the effective interest method.

The finance charges resulting from the finance lease are expensed, through the Statement of Financial Performance, as they accrue. The finance cost accrual is determined using the effective interest method.

Finance lease liabilities are derecognised when the entity's obligation to settle the liability is extinguished. The assets capitalised under the finance lease are derecognised when the entity no longer expects any economic benefits or service potential to flow from the asset.

Operating leases - lessor

For those leases classified as operating leases the asset subject to the lease is not derecognised and no lease receivable is recognised at the inception of the lease.

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term. The difference between the straight-lined lease payments and the contractual lease payments are

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

recognised as either an operating lease asset or operating lease liability.

An operating lease liability is raised to the extent that lease payments are received in advance (i.e. the straight-line lease payments are more than the contractual lease payments). The operating lease asset and / or operating lease liability are measured as the undiscounted difference between the straight-line lease receipts and the contractual lease receipts.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

Income for leases is disclosed under revenue in the statement of financial performance.

Operating leases - lessee

Assets subject to operating leases, i.e. those leases where substantially all of the risks and rewards of ownership are not transferred to the lessee through the lease, are not recognised in the Statement of Financial Position.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.13. Inventories

Initial recognition and measurement

Inventories are initially measured at cost. Cost refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their required location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Water inventory is being measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

Where inventory is acquired for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Subsequent measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress (WIP) and finished goods (FG), are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Water inventory is measured annually at the reporting date by way of dip readings and the calculated volume in the distribution network.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

Derecognition

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.14 Impairment of cash-generating assets

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

Recognition and measurement

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Reversal of impairment loss

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

ACCOUNTING POLICIES

1.15. Employee benefits

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short term employee benefits are recognised in the Statement of Financial Performance as services are rendered, except for non-accumulating benefits, which are recognised when the specific event occurs. These short term employee benefits are measured at their undiscounted costs in the period the employee renders the related service or the specific event occurs.

Post-employment benefits

The entity provides post-employment benefits for its officials. These benefits are provided as either defined contribution plans or defined benefit plans. The entity identifies as defined contribution plans any post-employment plan in terms of which it has no obligation to make further contributions to the plan over and above the monthly contributions payable on behalf of employees (for example in the event of a funding shortfall). Any other plans are considered to be defined benefit plans.

Defined contribution plans

Contributions made towards the fund are recognised as an expense in the Statement of Financial Performance in the period that such contributions become payable. This contribution expense is measured at the undiscounted amount of the contribution paid or payable to the fund. A liability is recognised to the extent that any of the contributions have not yet been paid. Conversely an asset is recognised to the extent that any contributions have been paid in advance.

Post-retirement Medical Obligations

The municipality provides post-retirement medical benefits by subsidising the medical contributions of certain retired staff members according to the rules of the medical aid funds. Council pays 70% of the contributions and the remaining 30% is paid by the members.

The entitlement to post-retirement medical benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations, in accordance with GRAP 25 - "Employee Benefits". The plan is unfunded.

The contributions are recognised in the statement of financial performance when the employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method.

The liability is recognised at the present value of the defined benefit obligation at the reporting date,

minus the fair value of the plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of minimum funding requirements. Payments made by the municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries, and are recognised in the Statement of Financial Performance upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by Independent qualified actuaries.

1.16. Provisions and contingences

Provisions are recognised when:

- a) the municipality has a present obligation as a result of a past event;
- b) it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- c) a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditure for which the provision was originally recognised. Provisions are not recognised for future operating deficits.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 40.

1.17. Revenue from exchange transactions

Revenue from exchange transactions refers to revenue that accrues to the entity directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable, excluding indirect taxes, rebates and discounts.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Recognition

Revenue from exchange transactions is only recognised once all of the following criteria have been satisfied:

- a) The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- b) The amount of revenue can be measured reliably; and
- c) It is probable that the economic benefits or service potential associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue arising out of situations where the entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the entity as compensation for executing the agreed services.

Specific exchange revenue sources

Service charges relating to electricity and water are based on consumption. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Electricity meters in industrial areas are read at the end of each month and billed the following month. Premises with high-tension electricity supplies are read and billed monthly.

Revenue arising from the consumption of electricity and water in the month of June is fully accounted for whether invoiced or not.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. At reporting date, an estimate of the prepaid electricity consumed is made and revenue is adjusted accordingly. The estimate is based on trend analysis and historical data of electricity consumption.

Service charges from sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff. Tariffs are determined per category of property usage and are levied on a monthly basis.

Rental income arising on facilities and equipment is accounted for on a straight-line basis over the lease terms on on-going leases.

License fees and permits are recognised in accordance with the substance of the agreements entered into.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and rebates.

1.18. Revenue from non-exchange transactions

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Recognition

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount and once all the following criteria have been satisfied:

- a) The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- b) The amount of revenue can be measured reliably; and
- c) It is probable that the economic benefits or service potential associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Council applies a flat rating system. The same rate factor is applied for land and buildings. In terms of this system, assessment rates are levied on the value of land and buildings in respect of properties. Rebates are granted according to the use of the property concerned. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines are recognised when it is probable that future economic benefits will flow to the entity, the costs can be reliably measured and all restrictions have been complied with. Fines constitute both spot fines and summonses. Revenue from spot fines is recognised when payment is received and the revenue from the issuing of summonses is recognised when collected. Due to the various legal processes that can apply to summonses and the inadequate information available from the courts, it is not possible to measure this revenue in the invoicing period.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset and there is not a corresponding liability in respect of related conditions.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

Measurement

An asset that is recognised as a result of a non-exchange transaction is recognised at its fair value at the date of the transfer. Consequently, revenue arising from a non-exchange transaction is measured at the fair value of the asset received, less the amount of any liabilities that are also recognised due to conditions that must still be satisfied.

Where there are conditions attached to a grant, transfer or donation that gave rise to a liability at initial recognition, that liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants without any conditions attached are recognised as revenue in full when the asset is recognised, at an amount equalling the fair value of the asset received.

Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor.

1.19. Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.20. Unauthorised expenditure

Unauthorised expenditure means any expenditure incurred by a municipality otherwise than in accordance with section 15 or 11(3) of the Municipal Finance Management Act (Act No.56 of 2003), and includes:

- a) overspending of the total amount appropriated in the municipality's approved budget;
- b) overspending of the total amount appropriated for a vote in the approved budget;
- c) expenditure from a vote unrelated to the department or functional area covered by the vote;
- d) expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose;
- e) spending of an allocation referred to in paragraph (b), (c) or (d) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation; or
- f) a grant by the municipality otherwise than in accordance with this Act;

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.21. Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.22. Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.23. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions or if the related party entity and other entity are subject to common control.

Transactions between related parties other than transactions that would occur within a normal supplier or client/recipient relationship on terms and conditions no more or less favourable than those which it is reasonable to expect the entity would have adopted if dealing with that individual or entity at arm's length in the same circumstances are disclosed within the annual financial statements.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

1.24. Taxes - Value added tax

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of value added tax recoverable from, or payable to the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

1.25. Capital commitments

Capital commitments disclosed in the financial statements represents the contractual balance committed to the capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

Blue Crane Route Municipality

Annual Financial Statements for the year ended 30 June 2016

ACCOUNTING POLICIES

1.26. Consumer deposits

Consumer deposits are disclosed as a current liability. Consumer deposits are levied in-line with council's policy to consumers when services are initially connected. When services are disconnected or terminated, the outstanding deposit is utilised against any arrear accounts the consumer might be liable for on that date. Any excess deposit after all debt is settled is refunded to the specific consumer.

2. Post-reporting date events

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue.

Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that is indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The entity will adjust the amounts recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The entity will disclose the nature of the event and an estimate its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

3. New standards and Interpretations

3.1 Standards and Interpretations early adopted

The municipality has chosen to early adopt the following standards and interpretations:

Standard / Interpretation

Effective date:

Years beginning on or after

None

3.2 Standards and Interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 April 2015 or later periods:

Blue Crane Route Municipality
Annual Financial Statements for the year ended 30 June 2016
ACCOUNTING POLICIES

Standard / Interpretation	Effective date: Years beginning on or after	Expected impact:
GRAP 18: Segment Reporting	01 April 2017	No significant effect
GRAP 20: Related Parties	01 April 2017	No significant effect
GRAP 32: Service concession arrangements:	01 April 2016	No significant effect
GRAP 108: Statutory Receivables	01 April 2016	No significant effect
IGRAP 17: Service Concession Arrangements where a Grantor Controls a Significant Residual Interest in an Asset	01 April 2016	The impact of the amendment is not material.
GRAP 16 (as amended 2015): Investment Property	01 April 2016	The adoption of this amendment has not had a material impact on the results of the company but has resulted in more disclosure than would have previously been provided in the financial statements
GRAP 17 (as amended 2015): Property, Plant and Equipment	01 April 2016	The adoption of this amendment has not had a material impact on the results of the company but has resulted in more disclosure than would have previously been provided in the financial statements
GRAP 109: Accounting by Principals and Agents	01 April 2017	The impact of the amendment is not material.

ACCOUNTING POLICIES

Possible impact of initial application of standards of GRAP approved but not yet effective

GRAP 18: Segment Reporting – It is expected that this will only result in additional disclosures without affecting the underlying accounting.

GRAP 20: Related Parties - No significant impact is expected as the Information is to a large extent already included in the financial statements.

GRAP 32: Service concession arrangements: Grantor – No significant impact is expected as no such transaction or events are expected in the foreseeable future.

GRAP 108: Statutory Receivables – No significant impact is expected as the Information is to a large extent already included in the financial statements.

IGRAP 17: Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

GRAP 16 (as amended 2015): Investment Property – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

GRAP 17 (as amended 2015): Property, Plant and Equipment – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

GRAP 109: Accounting by Principals and Agents – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

GRAP 21 (as amended 2015): Impairment of non-cash-generating Assets – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

GRAP 26 (as amended 2015): Impairment of cash-generating Assets – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

Directive 12: The Selection of an Appropriate Reporting Framework by Public Entities – No significant impact is expected as no such transactions or events are expected in the foreseeable future.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

	2016 R	2015 R (Restated)
4 Other financial assets		
Amortised cost		
Long term loans	12 749	15 692
This loan is for a sport club and is repayable in monthly instalments over a period of twenty years. It has a fixed interest rate of 5% and will be fully redeemed in April 2020. This loan is not secured		
Opening Balance	15 692	18 493
Interest accrued	719	861
Installments	(3 662)	(3 662)
Closing Balance	12 749	15 692
Non-current assets		
Amortised cost	9 855	12 749
Current assets		
Amortised cost	3 094	2 943
	12 749	15 692

The municipality has not reclassified any financial assets from cost or amortised cost to fair value, or from fair value to cost or amortised cost during the current or prior year.

There were no gains or losses realised on the disposal of held to maturity financial assets in 2016 and 2015, as all the financial assets were disposed of at their redemption date.

Loans and receivables past due but not impaired

Loans and receivables which are less than 3 months past due are not considered to be impaired. At 30 June 2016 - Rnil (2015 - Rnil) were past due but not impaired.

5 Financial assets by category

The accounting policies for financial instruments have been applied to the line items below:

Direct operating expenses arising from investment property that generated rental revenue: Rnil (2015: Rnil)

Pledged as security

No investment property have been pledged as security for loans

Details of valuation

The effective date of the revaluation was at 30 June 2016. Valuations were performed by an independent valuer from, Mr Daniel Grobler under the supervision of Ducharme Consulting CC. The independent valuer is not related to the Municipality and has recent experience in the location and category of the investment property that have been valued.

The valuation was based on open market value for existing use.

Investment property is split between land and improvements R89 441 535 and R5 562 680 (2015: R33 821 522 and R17 629 838) respectively.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

	2016 R	2015 R (Restated)
--	-----------	-------------------------

15 Employee benefit obligations

Defined benefit plan

The Municipality offers employees and continuation members the opportunity of belonging to one of several medical schemes, most of which offer a range of options pertaining to levels of cover.

Upon retirement, an employee may continue membership of the medical scheme. Upon a member's death-in-service or death-in-retirement, the surviving dependants may continue membership of the medical scheme.

In-service members will receive a post-employment subsidy of 60% of the contribution payable should they be a member of a medical scheme at retirement.

All continuation members and their eligible dependants receive a subsidy of either 60% or 70%.

Upon a member's death-in-service or death-in-retirement the surviving dependants will continue to receive the same between 60% and 70% subsidy.

All subsidies are subject to a maximum of R3 571 for the year ending 30 June 2017. The maximum subsidy amount has been assumed to increase in the future at 75% of salary inflation.

Principal assumptions

Discount rate

Grasp 25 stipulates that the choice of this rate should be derived from high quality corporate bond yields. However, where the market in these bonds is not significant, the market yields on government bonds consistent with the estimated term of the post-employment liabilities should be used. Consequently, a discount rate of 9.18% per annum has been used. The corresponding index-linked yield at this term is 1.79%. These rates do not reflect any adjustment for taxation. These rates were deducted from the yield curve obtained from the Bond Exchange of South Africa after the market close on 30 June 2016.

The rate is calculated by using a liability-weighted average of yields for the three components of the liability. Each component's fixed-interest and index-linked yield was taken from the bond yield curve at that component's duration, using an iterative process.

Financial assumptions

Discount rate	9.18%
Health care cost inflation rate	8.27%
Net effective discount rate	0.84%

The next contribution rate increase is assumed to occur at 1 January 2017.

Demographic assumptions

Average retirement age	63 (males)/ 58 (Females)
Continuation of membership at retirement	100%
Proportion assumed married at retirement	70%

Accrued Liability Values

Carrying value		
Opening Accrued Liability	19 561 570	16 234 545
Service cost	1 005 728	783 778
Interest cost	1 701 288	1 425 332
Benefits paid	(508 224)	(478 248)
Actuarial (gain) / loss recognised in the year	(1 342 181)	1 596 183
Closing Accrued Liability	20 418 181	19 561 570
Non-current liabilities	19 917 797	19 053 346
Current liabilities (Estimate of benefits payments expected in the next annual period)	500 384	508 224
	20 418 181	19 561 570

The total liability has increased by 4.4% (or R 885 581) since the last valuation

The extent of unexpected increases or decreases in the liability over the period from the previous valuation date to the current can be summarised in the following main components:

Actuarial (Gain)/Loss for the period	(1 342 181)
Contribution to Actuarial (Gain)/Loss:	
Basic changes: Increase in net discount rate	(528 639)
Decrease maximum subsidy inflation to 75% of salary inflation	(727 220)
Contribution increases higher than assumed	85 267
Changes to membership profile different from assumed	(171 589)

<p>It is municipality policy to lease certain plant and equipment under finance leases. The average lease term was 3-5 years and the average effective borrowing rate was between 9,30% and 9,55% for plant and 14,2% for office equipment. Interest rates are linked to prime at the contract date. No arrangements have been entered into for contingent rent.</p> <p>The municipality's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer to note 12. Property, plant and equipment for the carrying value of assets subject to finance lease.</p> <p>There are no subleases.</p> <p>Defaults and breaches</p> <p>There were no default during the period of principal, interest, sinking fund or redemption terms of loans payable.</p>

Environmental rehabilitation provision

The above rehabilitation provision includes the three towns of Somerset East, Cookhouse and Pearston.

All landfill sites financial implications and valuations are determined in terms of Section 28 of the National Environmental Management Act, Act no. 107 of 1998.

The effective date of all valuations was 30 June 2016 and was done and certified by Mr. S Nel, Professional Engineer, from Bosch Munitech.

In Calculating the provision for rehabilitation, the following have been included:

Direct contract costs

Indirect Professional Fees

Indirect disbursements

Escalation

No rehabilitation has taken place on Cookhouse or Pearston landfill sites during the current year, while covering has partly taken place at Somerset East landfill site.

Due to the operating procedures, the operating area of Somerset East has increased from 3.2Ha to 4.7Ha and Cookhouse has increased in size from 0.2Ha to about 0.5Ha over two years, while the size of the operating area of Pearston has remained constant.

Monetary values for landfill sites at 30 June 2016:

Cookhouse	R 1 394 339
Pearston	R 3 927 124
Somerset East	<u>R 18 309 139</u>

This committed expenditure relates to infrastructure projects and will be financed by Government Grants.

Operating leases - as lessee (expense)

No operating leases were paid for in the 2016 financial year.

Operating leases - as lessor (income)

Certain of the municipality's property is held to generate rental income. No lease agreements are in place and tenants rent the respective properties on a month to month basis. There are no contingent rents receivable.

40 Contingencies

Contingent Liabilities

Matter: Blue Crane Route Municipality vs A Afrikaner

During January 2008 a child was shocked by electricity wire in Pearson. After a payment was made in 2012, a further summons was issued against the Municipality in September 2015 claiming damages of R4 320 000. Also see Contingent assets for further details.

Matter: Blue Crane Route Municipality vs South Africa Local Authorities Pension Fund

During June 2016 the Municipality received a letter of demand in terms of which SALA Pension Fund is claiming an amount of R176 801. The Municipality's attorneys are of the view that this claim has prescribed and that it fails to comply with the provisions of the Institution of legal proceedings against Certain Organs of States Act, 40 of 2002.

Matter: Blue Crane Route Municipality vs Various Employees

The following Labour matters is still ongoing:

Name of Employee	Labour Case details	Further anticipated costs
Ms Sammy	Dispute her remuneration	R50 000 (For exception costs only) This amount excludes the municipality's possible obligation should the claimant be successful
1 Hendricks & other	Re-employment in terms of Agreement	R 60 000 This amount excludes the municipality's possible obligation should the claimant be successful

Contingent assets

Matter: Blue Crane Route Municipality vs A Afrikaner

An insurance claim was lodged for a public liability claim from the Municipality's Insurers and their legal section is currently investigate this claim. If the public liability claim is successful, a maximum amount of R2 000 000 (Includes an excess of R5000) will be receivable from them.

Matter: Blue Crane Route Municipality vs Autumn Star/Claassen

The matter is on going. The Municipality's prospects of success remains strong and should be able to obtain an order for repayment of approximately R1 561 737 (Autumn Star) and R3 602 190 (Claassen). These matters are set down for 27 February 2017 and 1 August 2016 respectively.

Matter: Blue Crane Route Municipality vs Santam Insurance Limited

The decision of Judge Roberson after the trial was in the Municipality's favour and the amount of damages will be decided at the following trial. If the defendant is prepared to settle on the actual amounts paid out by Council, the amount claimed will be R1 500 000. The Municipality is currently awaiting the Defendants decision on this matter.

Matter: Blue Crane Route Municipality vs A Swenepoel

The Municipality appeal was successful, but Bill of costs has not been taxed yet. The total costs Mr Swenepoel must pay the Municipality could be more than R50 000.

Contingent movements from previous year (Deleted from contingencies)

The following labour matters had been concluded

- The Municipality vs PJ Dreyer
- The Municipality vs C Simons
- The Municipality vs N Masezent
- The Municipality vs S Kambl
- The Municipality vs M Majani

Matter: Blue Crane Route Municipality vs Standard bank

The Municipality settled this matter in June 2016 by paying an amount of R150 000 to Standard bank.

Matter: Blue Crane Route Municipality vs JP Barnard

This matter was settled with a total cost order of R25 839 on 22 October 2015.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

	2016 R	2015 R (Restated)
--	-----------	-------------------------

43 Risk management

Financial risk management

The municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The municipality's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, municipality treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

Interest rate risk

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk.

Cash flow interest rate risk

Financial instrument	Current interest rate	Due in less than a year	Due in one to two years	Due in two to three years	Due in three to four years	Due after four years
Other financial liabilities	8.62%	(3 496 523)	(3 180 410)	(3 510 271)	(3 857 176)	(816 780)
Trade and other payables from non-exchange	10.50%	(254 717)	-	-	-	-
Payables from exchange transactions	7%	(12 982 674)	-	-	-	-
Finance lease obligation	9.55%	(1 133 398)	(858 589)	(941 354)	(488 278)	-
Trade and Other receivables from exchange	11.50%	19 888 853	-	-	-	-
Other receivables from non-exchange	11.50%	5 407 784	-	-	-	-
Other financial assets	5.00%	3 094	3 253	3 419	2 983	-
Cash in current banking institutions	7.85%	12 661 028	-	-	-	-

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	2016	2015
Trade receivables from exchange transactions	18 839 998	17 785 907
Other receivables from non-exchange transactions	5 407 784	4 227 031
Other receivables from exchange transactions	1 148 855	3 309 113
Other financial assets	8 658	12 748
Short term deposits	12 661 028	10 231 410

The municipality holds deposits of R2 482 971 (2015: R2 238 006) from consumer debtors. No guarantees or collateral was provided to third parties.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

	2016 R	2015 R (Restated)
44 Going concern		
The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.		
45 Events after the reporting date		
There are no events after reporting date to report on.		
46 Unauthorised expenditure		
Opening balance	18 113 708	13 185 391
Add: Unauthorised Expenditure - current year	15 800 433	1 928 317
Less: Amounts recoverable/condoned	-	-
	<u>30 914 141</u>	<u>15 113 708</u>
Unauthorised expenditure occurred due to Electricity purchases and debt impairments which was much more than budgeted. Interest on Landfill site rehabilitation cost was also more than suspected.		
47 Fruitless and wasteful expenditures

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999).

There is a growing awareness of the need to address the needs of people with mental health problems in the community. The Department of Health (1999) has set out a vision for the future of mental health services, which includes a focus on preventing mental health problems, supporting people with mental health problems in the community, and providing specialist services for people with severe mental health problems. The Department of Health (1999) also states that the future of mental health services should be based on a partnership between the NHS, local authorities, and the voluntary sector.

The Department of Health (1999) also states that the future of mental health services should be based on a partnership between the NHS, local authorities, and the voluntary sector. The Department of Health (1999) also states that the future of mental health services should be based on a partnership between the NHS, local authorities, and the voluntary sector.

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999). The prevalence of mental health problems in the UK is estimated to be 10% (Mental Health Foundation 1999).

There is a growing awareness of the need to address the needs of people with mental health problems in the community. The Department of Health (1999) has set out a vision for mental health care in the UK, which is based on the principles of recovery, self-help, and community care. The vision is to ensure that people with mental health problems are able to live full and meaningful lives, and that they are able to contribute to society. The vision is based on the following principles:

- People with mental health problems should be able to live full and meaningful lives.
- People with mental health problems should be able to contribute to society.
- People with mental health problems should be able to live in the community.
- People with mental health problems should be able to live with dignity and respect.

The vision is based on the following principles: recovery, self-help, and community care. The vision is to ensure that people with mental health problems are able to live full and meaningful lives, and that they are able to contribute to society.

The vision is based on the following principles: recovery, self-help, and community care. The vision is to ensure that people with mental health problems are able to live full and meaningful lives, and that they are able to contribute to society.

Introduction.....	3
Legislative Requirements	3
Comparison of BCRM's current performance with previous 2 financial year's performance:.....	3
Organisational performance as per the SDBIP 2015/2016.....	4
Comments by the Municipal Manager	4

Introduction

In May 2014 BCRM adopted its 4th IDP Review, subsequent to that SDBIP was developed and approved by the Mayor as per circular 13. The report seeks to give an overview of the BCRM performance during the 2015/2016 financial year.

Legislative Requirements

As per section 40 of the Municipal Systems Act of 2000 (MSA), a Municipality must establish mechanisms to monitor and review its Performance Management System (PMS) so as to measure, monitor, review, evaluate and improve performance at organizational, departmental and employee level.

Section 41 of the MSA requires a Municipality to set appropriate KPI's as a yardstick for measuring performance as well as measurable performance targets, with regard to each of the Municipality's development priorities and objectives as set out in the IDP. With regard to these KPI's and targets, S41 (1) (c) requires that the Municipality monitor performance and that it measures and reviews this performance at least annually.

Section 46 of the Municipal Systems Act (MSA) requires the Municipality to prepare a performance report for each financial year reflecting the performance of the service providers during the that financial year, comparison of the performances with set targets for and the performances of the previous financial year and measures taken to improve performance. The Act further requires that the report form part of the Municipality's annual report, in terms of Chapter 12 of the Municipal Finance Management Act (MFMA).

Comparison of BCRM's current performance with previous 2 financial year's performance:

DEPARTMENTAL PERFORMANCE RESULTS OVER 3 YEARS BASED ON SDBIP TARGETS			
FINANCIAL YEAR	2013/2014	2014/2015	2015/2016
OVERALL PERFORMANCE	68%	79 %	83%
Municipal Transformation and Institutional Development (Corporate Services)	56%	77%	59%
Service Delivery and Infrastructure Development (Technical services)	75%	67%	77%
Service Delivery and Infrastructure Development (Community Services)	75%	53%	96%
Municipal Finance Viability (Financial Services)	64%	87%	86%
Good Governance and Public Participation (Office of the Municipal Manager)	85%	100%	92%

Organisational performance as per the SDBIP 2015/2016

Departments	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Annual
Municipal Transformation and Institutional Development (Corporate Services)	44	61	64	66	59
Service Delivery and Infrastructure Development (Technical services)	89	69	74	76	77
Service Delivery and Infrastructure Development (Community Services)	100	96	95	92	96
Municipal Finance Viability (Financial Services)	75	88	82	81	86
Good Governance and Public Participation (Office of the Municipal Manager)	100	89	87	90	92

Comments by the Municipal Manager

According to section 54 of the MFMA the Mayor must; on receipt of a statement or report submitted by the accounting officer of the municipality in terms of section 71 or 72, consider and, if necessary, make any revisions to the service delivery and budget implementation plan, provided that revisions to the service delivery targets and performance indicators in the plan may only be made with the approval of the council following approval of an adjustments budget. The necessary changes have been made in both performance indicators and performance targets

LED targets have not been reported on and implemented due to the disestablishment of the development agency and non-existence of the unit within the municipality. Cacadu Development Agency (CDA) is responsible for all the micro projects implemented within the municipal area. The municipality will therefore establish the LED unit in the next financial year.

Based on the above, the performance of LED is not included in the Annual Performance Report. The Municipality is in the processes of establishing the LED unit within the Office of the Municipality. The proposed structure has been included in the approved organisational structure. The projects will then continue upon establishing the structure.

The following has been attached as annexures:

- Detailed 2015/2016 Performance results presented per department is attached as annexure A
- List of all removed and refined indicators annexure B
- Performance of the Service Providers attached as Annexure C

Signed by:

Mr T Klaas

Municipal Manager

Cllr B. Manxoweni

Mayor /Speaker

MUNICIPAL INSTITUTIONAL TRANSFORMATION AND ORGANIZATIONAL DEVELOPMENT											
Department	Strategic Objective	Key Result Area	Performance Indicator	Target	Actual	Comments	Comments	Comments	Comments	Comments	Comments
Legal Service	To ensure that the municipality execute its legal mandate by 2017	By reporting to council on the status of all pending legal cases	No of reports on the status of all pending legal cases	0	Submit report on the status of all pending legal cases.	Target met, the report was generated and submitted to council.	n/a	Submit report on the status of all pending legal cases	Target met - Report on the status of all pending legal cases was submitted to the council meeting on the 10th December 2015. The council resolution will be made available as soon as committee clerk return from leave	n/a	Submit report on the status of all pending legal cases.

LIST OF REMOVED AND AMENDED KEY PERFORMANCE INDICATORS

CORPORATE SERVICES DEPARTMENT		
KPI	INDICATOR	MOTIVATION FOR CHANGE OF KPI INDICATOR
2	Number of capacity building initiatives conducted	The capacitation program was going to be conducted in partnership with SALGA. The program was scheduled for the fourth quarter of the financial and SALGA noticed that it will not make logical sense to train councillors whose term of office will be ending at the end of the financial year. We have since resolved to cancel the training scheduled to take place in the fourth of the financial year instead to be undertaken in the first quarter of the next financial year when new councillors had been appointed
TECHNICAL SERVICES DEPARTMENT		
KPI NO	INDICATOR	MOTIVATION FOR CHANGE OF KPI TARGETS
16	Completion of Phase 1 of SE WWTW	1. Q3 - the 28 day period commenced in Q2 but could not be completed due to the quality of the effluent not meeting the required standards yet. Hence it has overlapped to Q3. 2. Q4 - the deliverable target for Q3 moved to Q4 (completion of O&M training)
19	No. of boreholes sighted for drilling	1.The indicator only indicated the sighting of boreholes because the number of boreholes to be drilled are only exposed after the sighting has been completed. Therefore, the indicator has been updated to add the drilling, equipping and connection of the boreholes to the reservoirs and construction of pump house. 2. Q3 - deliverable targets have been added to indicate the drilling, equipping and connection of the boreholes to the reservoirs. 3. Q4 - deliverable target has been added to indicate the construction of pump house.
21	No. of jobs created through CWP	1.CWP has been removed from the Technical Services Directorate because Technical Services has no power and control over the planning and implementation of CWP. 2. Q3 & Q4 - The target for Q4 has been moved to add on Q3 target because no employment will be made in Q4.
26	Number of sports fields upgraded (Pearston and Cookhouse)	1. Q3 - the deliverable target for Q2 has moved to Q3 because the appointment of a contractor could not be made in Q2 due to non-compliance of tenderers. 2. Q4 - Due to the delayed appointment of a contractor, construction will only commence in Q4.

27	Approved Water safety plan	Q3 - a new deliverable target has been added because a feasibility study needs to be performed to identify risks before a water safety plan can be developed.
30	Completed construction of 0.5 km of road leading to the to Aeroville Cemetery	1. Q3 - the target has been removed because it was identified that Technical Services Department does not have the capacity and resources to do the site investigations and the design of the road (civil designer programme or auto cad programme). The project will now be sourced out to the Professional Service Provider for further implementation. 2. The indicator has changed since the project will be sourced out the Professional Service Providers.
COMMUNITY SERVICES DEPARTMENT		
KPI NO	INDICATOR	MOTIVATION FOR CHANGE OF KPI TARGETS
32	No of recycling programmes conducted	1. Q3 - Performance targets for Q3 & Q4 should be deferred to the 2016/ 17 financial year as delays by the funding agent (DTI) have resulted in the service provider being unable to proceed with the project as planned.
33	By establishing Aeroville cemetery	1.Q3 - The project regarding the road has been moved to Technical Services, but due to limited funding (for the road and fencing), the fencing of the cemetery was earmarked to be done internally (hence the project was not advertised externally) 2. Q4 - The fencing project is moved to Q3 of the 2016/ 17 financial year
OFFICE OF THE MUNICIPAL MANAGER		
63	Number of workshops on fraud and anti-corruption held to educate employees	This indicator and target was poorly planned as we can only workshop the workforce on an approved fraud policy. The fraud policy will be approved in the 4th quarter and the workshop will be conducted in 2016/17 FY during the first and third quarter 2016/17
70	Number of Reports on initiatives implemented by Gov Depts within BCRM submitted to Council	Due to lack of participation of government departments in the IDP related programmes and IGR meetings, therefore the municipality does not get progress reports on the projects implemented by government departments.
76	Developed ICT Strategy	Due to lack of sufficient funds and the project will be done in the next financial year
77	Upgrade IT infrastructure	Due to the adjustments made on the budget, the project could not be implemented as planned.

Report of the auditor-general to the Eastern Cape Provincial Legislature and the council on Blue Crane Route Municipality

Report on the financial statements

Introduction

1. I have audited the financial statements of the Blue Crane Route Municipality set out on pages xx to xx, which comprise the statement of financial position as at 30 June 2016, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2015 (Act No.1 of 2015) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-general's responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Blue Crane Route Municipality as at 30 June 2016 and its financial performance and cash flows for the year then ended, in accordance with SA standards of GRAP and the requirements of the MFMA and DoRA.

Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unauthorised expenditure

8. As disclosed in note 46 to the financial statements, unauthorised expenditure to the amount of R15,8 million (2014-15: R1,93 million) was incurred as a result of overspending of the total amounts appropriated for the votes in the approved budget.

Irregular expenditure

9. As disclosed in note 48 to the financial statements, irregular expenditure to the amount of R12,2 million (2014-15: R39,3 million) was incurred as a result of contravention of the supply chain management (SCM) requirements.

Material losses

10. As disclosed in note 27 to the financial statements, electricity losses of 24% (2014-15: 24%) and water losses of 50% (2014-15: 44%) were incurred during the financial year.

Restatement of corresponding figures

11. As disclosed in note 42 to the financial statements, the corresponding figures for 30 June 2015 have been restated as a result of errors discovered during the current financial year in the financial statements of the Blue Crane Route Municipality at, and for the year ended, 30 June 2015.

Additional matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure note

13. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion thereon.

Unaudited supplementary information

14. The supplementary information (annexure A), set out on pages xx to xx, does not form part of the financial statements and is presented as additional information. I have not audited this annexure and, accordingly, I do not express an opinion thereon.

Report on other legal and regulatory requirements

15. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading, but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

16. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the basic service delivery and infrastructure development priority presented on pages x to x of the annual performance report of the municipality for the year ended 30 June 2016:
17. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned development priorities. I further performed tests to determine whether Indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for Managing Programme Performance Information (FMPPi).
18. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
19. The material findings in respect of the selected development priority are as follows:

Basic service delivery and infrastructure development

Usefulness of reported performance information

20. I did not raise any material findings on the usefulness of the reported performance information for the Basic service delivery and infrastructure development priority.

Reliability of reported performance information

21. The FMPPi requires auditees to have appropriate systems to collect, collate, verify and store performance information to ensure reliable reporting of actual achievements against planned objectives, indicators and targets. The reported achievements against planned targets of 26% indicators were not reliable when compared to the evidence provided.

Additional matters

22. I draw attention to the following matter:

Achievement of planned targets

23. Refer to the annual performance report on page(s) x to x; x to x for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the reliability of the reported performance information for the selected development priority reported in paragraph 21 of this report.

Compliance with legislation

24. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other related matters. My material findings on compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA, are as follows:

Annual financial statements and annual report

25. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of property, plant and equipment, contingent liabilities, contingent assets and unauthorised expenditure identified by the auditors in the submitted financial statement were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Expenditure management

26. Reasonable steps were not taken to prevent unauthorised, irregular as well as fruitless and wasteful expenditure, as required by section 62(1)(d) of the MFMA.

Consequence management

27. Unauthorised, irregular as well as fruitless and wasteful expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) and (b) of the MFMA.

Procurement and contract management

28. Goods and services of a transaction value above R200 000 were procured without inviting competitive bids, as required by SCM regulation 19(a).

29. Thresholds for local content on designated sectors' procurement were not properly applied in accordance with the requirements of preferential procurement regulation 9.

Human resource management

30. The competencies of the chief financial officer, head of the SCM unit, as well as financial and SCM officials were not assessed in a timely manner to identify and address gaps in competency levels as required by Municipal Regulations on Minimum Competency Levels 13.

Internal control

31. I considered internal control relevant to my audit of the financial statements, the annual performance report and compliance with legislation. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the financial statements, the findings on the annual performance report and the findings on compliance with legislation included in this report.

Leadership

32. The leadership ensured that all senior management positions and supply chain management vacancies were filled. However, the leadership did not enforce consequences for poor performance and transgressions of legislation, resulting in a culture where repeat findings have become the norm.

Financial and performance management

33. The municipality did not introduce appropriate mechanisms, processes, procedures, systems or internal controls to ensure that transactions are correctly recorded, classified, reconciled, reported on in accordance with the SA standards of GRAP. As a result, material misstatements were identified during the audit process, which were subsequently corrected by management.
34. In areas where the municipality made use of consultants, the consultants were not adequately monitored to ensure that their work was completed on time to allow the municipality to review and properly process that work in the financial statements.
35. In relation to predetermined objectives, management did not ensure that relevant and reliable evidence was maintained to support the reported performance information.
36. Overall, there was a slow response to audit recommendations as evidenced by repeat findings on the financial statements, the annual performance report and compliance with legislation.

Governance

37. Although the internal audit unit and audit committee executed their legislative mandate during the financial year under review, the municipality had recurring material findings on financial and performance management and compliance with legislation. This was as a result of the timing of the internal audit reports and leadership not responding adequately to recommendations made by the internal audit unit as well as the audit committee.

OTHER REPORTS

38. I draw attention to the following engagements that could potentially have an impact on the municipality's financial, performance and compliance related matters. My opinion is not modified in respect of these engagements that are either in progress or have been completed.

Investigations

39. The municipality requested the Department of Cooperative Governance and Traditional Affairs to conduct an investigation into the fraudulent change of a supplier's banking details during the period under review. At the time of this report, the investigation was still in progress.

Auditor General

East London

30 November 2016

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

BLUE CRANE ROUTE MUNICIPALITY

The Audit Committee is pleased to present its Annual report for the financial year ended 30 June 2016.

BACKGROUND OVERVIEW

The Audit Committee (AC) of Blue Crane Route Municipality was inducted on 4 September 2015 for a term of office of three years ending on 30 June 2018. It originally consisted of four members. The AC also has and perform the functions of two sub Committees, namely the Performance Audit Committee and the Risk Management Committee.

The Audit Committee adopted an Audit Committee Charter in the year under review, which sets out the fundamental roles and responsibilities of the Committee. The Charter is based by the requirements of Sec 166 of the Municipal Finance Management Act (MFMA). The Charter has been approved by Council in 2015/16 financial year.

ATTENDANCE OF MEETINGS

The Committee met four times in the financial year under review. Herewith as illustrated below:

Name of Member	Attendance	Apology	Total	Percentage attendance
Mr. R. Ortlieb (Chairperson) Nr.1	1		1	100%
Mrs. R.J. Blignaut (Chairperson)	4	0	4	100%
Mr. P.L. Moolman	4	0	4	100%
Mr. P.M. Songo	3	1	4	75%

Nr. 1 – Mr. R. Ortlieb resigned as audit committee member on 16 November 2015.

MANAGEMENT ATTENDANCE TO AC MEETINGS

The table below also illustrates Management attendance to Audit Committee meetings.

Name of Member	Attendance	Apology	Total	Percentage attendance
Municipal Manager	4	0	4	100%
Chief Financial Officer	4	0	4	100%
Director: Corporate Services	2	2	4	50%
Manager Internal Audit	4	0	4	100%
Manager IDP & PMS	4	0	4	100%
Manager: Financial Accounting & Reporting	3	1	4	75%
Director: Technical Services	3	1	4	75%
Director: Community Services	1	3	4	25%

The Audit Committee wishes to inform Council that apologies were received.

THE AUDIT COMMITTEE'S RESPONSIBILITIES

These are the fundamental roles and responsibilities of the Audit Committee:

1. Oversight over Internal Audit activities;
2. Oversight over External Audit activities;
3. Review of the Annual Financial Statements;
4. Financial Management and Reporting;
5. Performance Management;

INTERNAL AUDIT ACTIVITIES

Internal Audit unit reports administratively to the Municipal Manager and functionally to the Audit Committee. The Audit Committee thus provides the legal mandate for the existence of the internal Audit unit within the Municipality. The Committee approved the following administrative documents for the unit:

1. Internal Audit Charter 2015/16;
2. The Risk based Internal Audit Methodology;
3. Risk register;
4. Internal Audit plan 2015/16;

The Audit Committee is satisfied that the Internal Audit plans addresses a clear alignment with the outcomes of the risk assessment process, i.e. adequate information systems coverage, a good balance between different categories of audits, e.g. risk-based, mandatory, performance and follow-up audits.

The Committee monitored and evaluated the implementation of the Internal Audit plan and provided feedback to Management on the work performed by the Internal Audit unit. The Committee reports that the Internal Audit plan 2015/16 was implemented fully by the unit with additional ad-hoc audits requested by Management.

The primary role of the Internal Audit is to provide Management with assurance on the effectiveness and adequacy of the internal controls. The Committee received Internal Audit reports and scrutinised them for significant internal control deficiencies. The Committee has had fruitful engagements with Management on the findings reported by Internal Audit as well as Management comments provided. Management has been informed that the findings raised are an indication of control weaknesses that need to be strengthened for ensuring sound control environment.

The Audit Committee acknowledge that the internal Audit unit experienced difficulties and challenges in respect of resources. The Committee recommend to council that the Internal Audit Unit staff shortages be addressed to ensure operational functioning of the unit.

EXTERNAL AUDIT ACTIVITIES

The Audit Committee interacted with the representatives from the Office of the Auditor General on quarterly basis during attendance to AC quarterly meetings. The Audit Strategy for the financial year ended 30 June 2016, was presented to the Audit Committee. The Committee noted that the Regulatory audit will not be contracted out. The audit fees were discussed in detail.

The Committee advised Management to provide all the necessary support to the Office of the Auditor General during the audit process. Internal Audit has prepared a checklist of 2015 audit findings to ensure audit readiness for the current year. This is monitored on a continuous basis.

REVIEW OF THE ANNUAL FINANCIAL STATEMENTS

The first draft of the Annual Financial Statements was submitted to the Committee on 12 August 2016. The Committee engaged extensively in scrutinising the statements. Inputs were provided and amendments were effected to the statements. In overall the Committee noted significant improvement from prior year.

Management has addressed most of the prior year audit findings raised by the Auditor General.

The Audit Committee will engage with the Office of the Auditor General on the outcomes of the audit.

FINANCIAL MANAGEMENT AND REPORTING

The Committee reviewed the quarterly financial management report from the Chief Financial Officer.

The Committee is concerned about the declining cashflow of the municipality. The management has however have the situation under control and the measures in place to manage the cashflow.

SUPPLY CHAIN MANAGEMENT

The Committee reviewed the Internal Audit Report on Supply Chain Management. It noted the findings raised by Internal Audit on Supply Chain Management. The overall rating of the controls is weak. It is also a concern that the issues raised by the Internal Audit has previously been raised by internal and External Audit. No improvement was noted.

HUMAN RESOURCE MANAGEMENT

The Committee reviewed the Internal Audit Report on Human Resources. The overall rating of the controls is weak. The findings were previously also reported by the Internal Audit and External Audit. No improvement was noted.

FRAUD

The Audit Committee is aware that the municipality was a victim of alleged fraudulent amendments of suppliers' banking details. Management has kept the Audit Committee updated with the progress on this matter. The Committee is satisfied that preventative measures has been introduced.

PERFORMANCE MANAGEMENT

The performance management review was done for all section 56 and 57 managers on 20 and 25 July 2016.

The period under review was for the fourth quarter for the financial year ending 30 June 2016 as well as the annual review covering the whole financial year.

The overall review process has improved significantly from the med-year review. The performance management review system was only fully implemented in the financial year ending 30 June 2016. The process of review was implemented with the assistance of the newly created internal audit section within the Blue Crane Municipality and the improvement has been significant.

The following points were raised by the panel members that could improve the review process further:

1. Evidence should be presented as the review is undertaken between the relevant manager and his first reviewer and not at a later stage. This leads to disagreements between these parties at the stage when the final review is undertaken by the review committee.
2. In some instances, we have found that no clearly defined targets have been set as part of the Key Performance Indicators.
3. Care should be taken that key Performance Indicators should be quantitative in nature and easily measurable.
4. We would also like to emphasize the fact that all managers should strive to work together in achieving targets. Blame shifting in front of the review panel does not improve service delivery.

We would like to that all involved for a much improved review process.

CONCLUSION

The Committee has completed its first year of office from its three year office tenure.

The Committee again wishes to express its appreciation to the Management and leadership of the Blue Crane Route Municipality for continued support and good corporate governance as well as the Office of the Auditor General and all other stakeholders.

R.J. BLIGNAUT
CHAIRPERSON
31 August 2016
